Washington, DC 20037

Dear Has:

As you may know, I recently joined the Vinyl Institute as the Technical Director. During the last VI Executive Board meeting, there was a discussion on the various groups that were involved in activities important to the vinyl industry and your two panels, VCNET and the Vinyl Chloride Research Coordinators, were mentioned. Although the corporate membership to the VI and your panels are similar, I believe we both thought there would be a benefit in a more direct communication link between the VI and the panels when we discussed this last summer as I served as Chairperson of the VI Health, Safety and Environmental Committee.

I would like to meet with you after the holidays to discuss this further. I am currently planning to be at CMA on January 11 and could meet with you after 3:00 p.m. if you are available. If this is not convenient, I will try to contact you prior to one of my next visits to Washington.

Sincerely,

Frank E. Borrelli
Technical Director
