County Easter Seal Society Awarded Trophy For Gifts

Ventura County was recognized as a state leader in contributions to the Easter Seal Society at a convention in San Diego.

Trophy presentation was made by Dr. John Lounsbury, state chairman, who said "Ventura County residents' donation of part of their personal income reflects a concern for the problems of the physically handicapped."

Other trophies were won by the Riverside - Imperial chapters for largest contributions in the 500,000 to 1 million population group; and by Orange County in the more than 1 million population.

Forty-nine affiliates of the Easter Seal Society for Crippled Children and Adults were represented at the 43rd annual meeting in San Diego.

The way things are in the world is to always follow the same pattern. The way things are in the world is to always follow the same pattern. The way things are in the world is to always follow the same pattern.

Conscience is not a static thing. It is a dynamic thing. It is a thing that grows and changes. It is a thing that is always in the process of becoming. It is a thing that is always in the process of becoming. It is a thing that is always in the process of becoming.

Thus it is seen that the conscience is variable and therefore untrustworthy. It is only when it is enlightened and sensitive to the Holy Spirit that conscience may be safely followed.
