Asbestos Removal

Dear Ms. Crepeau:

During the demolition of the mill building, we have found a relatively small amount of asbestos containing insulation on some large pipe. We propose to remove this material as follows:

- 1) The material will be disposed of at Washington County Landfill.
- 2) Work to be performed by men who have been trained in asbestos removal and who have had the required physical examinations.
- 3) Removal foreman has attended an EPA-Georgia Tech Training Seminar.
- 4) File all required paper work.
- 5) Meet all requirements of EPA and OSHA and the outlined specifications and contract from U.S.G.

We will wrap the insulation and pipe in 6 mil poly with a warning label and haul it to the landfill. Since we will not be working in an enclosed area, I do not know how effective air monitoring will be. Costs are as follows:

Labor	4 men 16 hours	\$ 966.00
Material		145.00
Safety-uniforms, respirators, etc.		76.00
Van	260 miles @.30	78.00
2 Ton Truck	130 miles @.80	104.00
Air Monitoring		<u>1,100.00</u>
Sub-Total		2,469.00

United States Gypsum Company

March 18, 1987

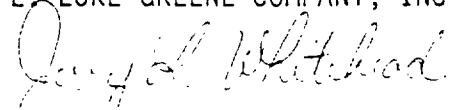

Page 2

	Sub-Total	\$2,469.00
Overhead @15%		<u>370.00</u>
		2,839.00
Fee @10%		<u>284.00</u>
		3,123.00
Insurance 15%		<u>468.00</u>
		\$3,591.00

If additional information is needed, please advise.

Very truly yours,

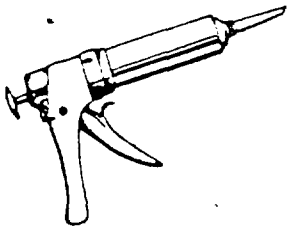

E. LUKE GREENE COMPANY, INC.

To Whom it May Concern:

This letter is to certify that all employees have had instructions on the health effects associated with asbestos exposure; relationship between asbestos and smoking in producing lung cancer; necessary protective steps to minimize exposure; purpose, proper use, and fitting instruction and limitations of respirators, and a review of provisions in 29 CFR 1910.1001 and OSHA 1910.1001.

This letter also certifies that we are participating in an ongoing training program in the asbestos abatement field, that we have never been cited for any safety or health violations by the Federal, State or Local Agencies, and that we have established a medical surveillance program in compliance with OSHA regulations.

NILFISK OF AMERICA, INC.

November 12, 1984

Mr. Neil Talbert
HOME INSULATION CO.
P.O. Box 611
Christiansburg, VA 24073

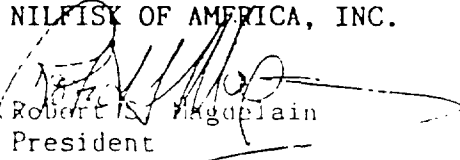

Dear Mr. Talbert:

At your request, I am pleased to assure you that NILFISK vacuum cleaners, when properly equipped with NILFISK exhaust filters, part numbers 017104, 115650 or 115120 on each motor unit, used according to manufacturer's instruction for use, conform to ANSI Z9.2-1971 para. 6.11.1.2 High Efficiency Replaceable Filters. The one exception to this para pertains to maintenance (cost); with a once-per-year replacement factor, our filters are not "high in maintenance" (cost).

When equipped with the above referenced filters and used according to manufacturer's instructions for use, all models conform to appropriate OSHA and EPA asbestos dust control standards.

Sincerely,

NILFISK OF AMERICA, INC.

Robert S. Maguelain
President
