Dr. Edward C. Holmblad,
23 East Jackson Boulevard,
Chicago 4, Illinois.

Dear Dr. Holmblad:

Some time ago I saw a copy of your letter to Warren Cook, concerning the possibility of a place on our program of A.I.H.A., for some representative of the Industrial Dentists. My impression is that some space was to be given to one of their representatives in your program, and this, in my opinion, should fulfill the requirements. However, our program committee, of which I am chairman, is entirely willing to give consideration to any paper that will fit into our program that will make useful contribution to the field. Therefore, if one of the representatives of the Industrial Dentists' group should care to submit a paper or abstract for our consideration, we will be glad to have it and will deal with it in due time. We have more material on hand than can be used, and we will certainly not be interested in making a place on the program just for the sake of having a representation of the Industrial Dentists. However, we will be happy to consider anything that is made available, on its merits and in relation to the general program of all groups represented.

Sincerely yours,

Robert A. Kehoe, M. D.
