Canada/PCB's

W. R. Corey - B2SL
H. S. Bergen - B2SL
T. L. Gossage - B2SL
→ J. F. Stapleton - B2SA
D. Goodwillie - 5080

W. B. Papageorge - B2NK

The Canadian Department of Industry, Trade & Commerce, Chemical Specialties Branch, Research Department has written MOCAN asking for PCB sales in Canada in 1971 by grade by % chlorination. The reference O.E.C.D. appears on the letter.

Dave Goodwillie called asking if we would divulge this. I told him I would check but meantime he should try to establish the reasons for the request. Is it a Canadian matter or a gathering of data for O.E.C.D., in which case have they asked other producers for sales figures.

Bill, you may recall that Tony Keith from Canada was at our May 15 Task Force meeting and was chairman of O.E.C.D.'s committee on PCB's. What action do you wish to take.
