

July 18, 1973

J. F. Smith

Dr. D. R. Lynam

Attached is correspondence from representatives of the Keystone Metal Company. Mr. Leib and an associate will be in New York for a meeting on July 12 at 10:30 regarding occupational health programs for a lead industry. Do you have any information as to why they are not members of LIA or whether they are eligible to be LIA members?

Thank you!

Sincerely,

Donald R. Lynam

10:30*

Dear Mr. Lynman,

This is to confirm our telephone conversation of this afternoon.
I plan to be in New York to see you July 10, 1973 at 10:00 in your
office. Thank You,

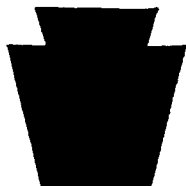

Sincerely Yours,

Jules Kann, M. D. Ph.D.

Dear Dr. Lynam:

Thank you very much for your letter of June 7, and the enclosures that came with it. Of these, I thought the Position Paper was excellent and in good agreement with our own practices.

I will be phoning you in a few days to see if Dr. Kann, our Medical Director and I can set a date with you for a discussion in New York. We may want to include one of our operating people.

In the meantime, I am working up some data on our four plants which strongly support blood-lead testing as the most reliable criteria. You may be interested in what we are doing and possibly we can, in turn, be of assistance to you and certain of your member companies.

Very truly yours,

F. E. Leib
