SUBJECT: LEAD CONTENT - CHICAGO ORDINANCE

In view of Chicago's recent enactment of an ordinance to limit lead content to .06% maximum of total solids we have reviewed our products for compliance.

The following will meet the requirements:

Y-47 - Satin Sheen Varnish
Y-51 (5013) - Polyurethane
Y-200 line - Stain
Y-507 - Antique Base
Y-510 line - Antique Alkyd Base *Does Not meet*
Y-592 - Metallite Aluminum
Y-1000 line - Aerosols
Y-5035 - Sanding Sealer
Y-5067 - Spray Daylite Flat
Y-1180 - Ultra Hide Eggshell
Y-3400 & 4300 - Q.D. Speedenamel White & Black
4300 4399

These products do not meet the requirements:

✓Y-37 - Urethane Satin Sheen
✓Y-49 - High Gloss Varnish
— Y-508 - Antique Patina Glaze
✓Y-555 - Enamel Undercoat
✓Y-900 - Spread Gloss
✓Y-4600 - Spread Lustre
✓Y-5016 - Wall Primer Sealer
✓Y-5050 - Eggshell Enamel
✓Y-5099 - Eggshell Stipple
✓Y-5400 - Gel Flo Eggshell
✓Y-5700 - Alkyd Flat
✓Y-5900 - Gel Flo Semi-Gloss
✓Y-5950 (6600 line) - Glidden Semi-Gloss
— Y-4397 & 4399 - Q.D. Speedenamel Primers
— Y-4035 - Buy-out

Mr. H. M. Werner

-2-

March 2, 1972

Mixed compliance is found in Speedenamel line - greens, reds, yellows and oranges do not comply. The others do. The floor enamels (800 series) do not meet the requirement but are excluded until January 1973. Y-700 is a buy-out and we do not currently have the necessary information.

This listing is based on formula review that no lead compounds are added as such. It does not take into account that analytical procedures may detect contaminants and trace lead impurities which may be present in raw materials.
