PROGRESS REPORT for the week ended May 13, 1949

INDUSTRIAL HYGIENE FOUNDATION

Industrial Fellowship No. 259-15

Subjects under
which report is
to be indexed)

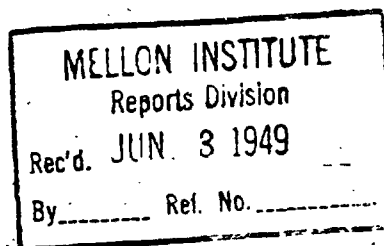

Another trip was made to Beaver Valley to service the three Trion installations at the St. Joseph Lead Company, and the homes of Mr. Wheaton and Dr. Long.

A trip was made to Pittsburgh Plate Glass Company in Creighton to obtain samples for the appraisal of their exposures due to (1) dust; (2) sulfur dioxide; and (3) heat.

The dust samples and sulfur dioxide samples for Pittsburgh Plate Glass Company were analyzed.
