

Premier of Saskatchewan

Legislative Building  
Regina Canada S4S 0B3

May 4, 2017

The Honourable Scott Pruitt  
Administrator of the United States Environmental Protection Agency  
Office of the Administrator 1101A  
1200 Pennsylvania Avenue NW  
WASHINGTON DC 20460  
USA

Dear Administrator Pruitt:

It was a pleasure to meet you during my recent visit to Washington. I appreciated the insight that you provided in regards to future energy development in the United States (U.S.). Based on our discussion, I agree we can grow our respective economies, maintain jobs and have a positive impact on the environment without the need to introduce new taxes or unnecessary regulations.

As discussed, North American energy dominance will require collaboration between the U.S. and Canada focused on all forms of energy. We support an approach to energy and the environment that focuses on technological innovations that can be deployed worldwide, such as carbon capture and storage (CCS) for coal fired-power plants.

Saskatchewan's Boundary Dam 3 (BD3) was the world's first commercial, post-combustion CCS project fully integrated with a coal-fired power plant. In 2016, BD3 captured 792,000 tonnes of carbon dioxide. SaskPower's blog provides monthly updates on the status of BD3 (<http://www.saskpower.com/about-us/category/blog/ccs-blog/>).

---

To further explore our leadership in CCS, I would encourage you and/or your officials to visit our province at your convenience. We would be pleased to put together a program to showcase Saskatchewan's strengths in the area of CCS. Mr. Mike Marsh, President and Chief Executive Officer (CEO) of Saskatchewan Power Corporation, will serve as your initial point of contact. He can be contacted at [mmarsh@saskpower.com](mailto:mmarsh@saskpower.com) or (306) 566-3409.

I appreciated the opportunity to hear from you directly about the process to review U.S. climate change policies pursuant to President Donald Trump's Executive Order Promoting Energy Independence and Economic Growth.

Canada and the U.S. enjoy a special relationship. Through continued partnership and collaboration, we can deliver enhanced opportunity and prosperity to our citizens.

Once again, thank you for taking the time to meet with me. I hope we will have the opportunity to meet again in the future.

Sincerely,

Brad Wall  
Premier

cc Honourable Gordon Wyant, Q.C.  
Minister Responsible for Saskatchewan Power Corporation

Mike Marsh  
President and CEO of Saskatchewan Power Corporation

*Thank you  
very much for  
your time Scott!  
let's work  
together on  
clean coal*
