Importance: High

Benzene Health Research Consortium (BHRC) Technical Committee, and colleagues -

FYI... ExxonMobil filed a TSCA 8(e) submission to USEPA on health findings reported in the draft publication by Irons et al., on Benzene-Induced Myelodysplastic Syndrome (BIMDS) seen in a cohort of Shanghai workers. The attached zip file contains:

- a copy of ExxonMobil's TSCA 8(e) letter (1-page pdf);
- a summary of the manuscript (1-page doc); and
- a full-text copy of the draft publication (19-page pdf).

The draft manuscript is also available on the Shanghai Health Study (SHS) web site.

Best Regards - Bruce.

Subject: TSCA 8e letter re BIMDS

Bruce, ExxonMobil has submitted under TSCA 8(e) a summary of the draft publication of Irons et al relating to BIMDS which I had previously forwarded to you. The letter to the EPA is attached below and as indicated by Stephen Bowes should be shared with the SHS consortium and investigators. We would appreciate it if you could distribute this to the SHS committees/ members and to the investigators.

Thank you
Michael

Subject: BIMDS letter to Agency

Michael,

Attached is the letter sent by ExxonMobil to EPA under TSCA 8(e) on the BIMDS information. This information should be shared within the consortium and with the investigators.

(See attached file: 8e on BIMDS April 2005.pdf)
