

1           Q     And when the job would be concluded, who  
2     would be the last one to conclude the job, to finish  
3     it up?

4           A     Usually the foreman always was.

5           Q     Now, tell me a little bit about Jean, Mr.  
6     Vandergucht, and what kind of foreman he was.

7                     Was he the kind that just kind of sat in a  
8     chair and gave you all orders or tell me a little  
9     about him?

10          A     No, that was one thing about Jean, he didn't  
11     like to sit. He liked to work. He was a hustler.

12          Q     All right. So would you call him a working  
13     foreman?

14          A     Oh, yes.

15          Q     Now, would the foreman --

16          A     He better be if he worked for Hampshire.

17          Q     Okay, okay.

18                     Now, at the Northern High School, what kinds  
19     of work were you and Mr. Vandergucht doing?

20          A     Well, we were doing a lot of plastering,  
21     cement stuff all around the building there.
