Thanks again for spending time with us today. Mr. Cason called me this afternoon and asked for some assistance in research the delta on gas vs. coal prices to NGS. I reminded him that I am only a punk lawyer, but luckily Peabody has smart forks in St, Louis who can be of assistance. I relayed the request and think that I can send some umbers by noon or so on Friday. Would you be so kind as to let him know that we are on it?

Also, Michal asked me for some background related to TEP. We are working on that as well. Would you mind sending me Michal's email at your convenience? Many thanks.
