NEWPORT COST REDUCTION 1981-1985

Attached are five-year cost reduction programs identified for the Newport site, totaling \$3MM. Included are three R&D programs underway at Jackson Lab. 1980 programs totaling \$1.9MM (1980 cost reduction forecast) were recently terminated in anticipation of an unfavorable business decision on Green. In the upcoming months we plan to work with yourself, Jackson Lab, R&D and Newport Manufacturing personnel to establish additional cost reduction programs for both CPC-Blue and QA.
