Subject: Asbestos Counts

In reference to our telephone conversation of October 27, 1972, the attached is a partial list of asbestos samples which exceeded the permissible limit of 5 fibers per ml during our survey of October 2 to 6, 1972. Work locations and operator names are also listed.

As soon as the remainder of the samples have been counted, the results will be forwarded to you.

If you have any questions, please contact me.
