Mr. E. M. Fenner, Director
Environmental Control
Johns-Manville Research & Engineering Center
P. O. Box 159
Manville, New Jersey 08835

Dear Mr. Fenner:

I want to take this opportunity to thank you, your Sales force and Dr. George Wright of St. Luke's Hospital for the tremendous job that was done this past January 28, when you permitted Dr. Wright to lecture our personnel on the safety aspects of a mineral called asbestos.

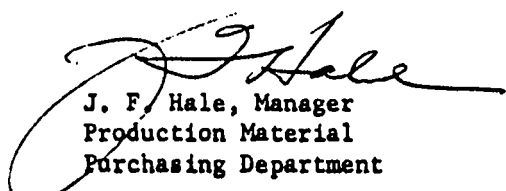

To sum it up, our entire group, including Dr. Gibson, thought the presentation was most helpful; and I can tell you personally that I learned more about the problem, as a layman, from this man in two hours than I could have learned by reading all the literature that is printed on the subject today.

Your colleagues, Asbestos Corporation and Lake Asbestos, worked with you as a team; and I believe we all came away from this meeting with a mutual understanding of our problems, and your problems, and that it is going to take a team effort if we are going to lick the situation as it stands now.

If there is any way I might reciprocate your courtesies in the future, please feel free to call on this office at your convenience.

Yours very truly,

INLAND MANUFACTURING DIVISION
