Desert Quartzite Solar Project draft environmental analysis available for public comment

If approved, the \$1-billion solar energy project would generate 870 jobs and \$72 million annually during peak construction, and deliver power to 117,000 homes in Southern California upon completion.

MORENO VALLEY, Calif. – The Bureau of Land Management is seeking public input on actions that would allow the proposed development of the Desert Quartzite Solar Project, a 450-megawatt solar development in eastern Riverside County.
