CAN YOU ASSIST ME IN HELPING ME TO CONNECT TO HIS PROPER SCHEDULING PERSON? the walk is about an hour to an hour and a half ...we have seen as many as 50 species during the walk including one year 17 species of warblers as well as other neotropical migrants. The generally attracts 10-15 folks from the NGO's and agency's...I am inviting Mike Thompson and Rob Wittman from the MBCC - I saw each of them at the DU dinner and they expressed interest in attending. Let me know as soon as you can about SEC Zinke's scheduler. Thanks so much and hope you can join us.
