WELDING PAINTED SURFACES

A copy of the Federal Safety and Health Regulations for construction pertaining to welding painted surfaces is attached. Please note especially Part 1926.354.

OSHA regulations pertaining to welding involving metal coated with lead-bearing materials including paint are also attached. (Part 1910.252)

It is suggested that your customer check the full set of regulations from which these pages were extracted. He may also want to determine whether he is affected by "Construction" regulations.
