Good stuff for small asbestos removal jobs.

INTEROFFICE MEMORANDUM

JULY 8, 1988

FROM: N. G. CHOATE, SENIOR SAFETY INSPECTOR
TO: ALL MANAGERS
SUBJECT: SEALER FOR EXPOSED ASBESTOS

A water based sealer called VINYL - ACRYLIC MASTIC COATING has been added to our warehouse small stores stock. It comes in two (2) gallon containers.

This material is used as a sealer to be applied to exposed asbestos insulation. For example, if a small amount of asbestos insulation is removed [Incidental Removal] this material will be brushed on the remaining exposed end to seal any loose fibers. Of course, all procedure specified by the Asbestos S.O. - S-125, must be strictly followed. The Vinyl master folio number is 8000-061199.

Any questions or comments, please me at 6393.
