**PLAINTIFFS' MASTER SET OF INTERROGATORIES
PROPOUNDED TO FIDELITY BUILDERS SUPPLY, INC.**

TO: FIDELITY BUILDERS SUPPLY, INC., by and through its attorney of record, David Arnold, Weston, Hurd, Fallon, Paisley & Howley, 2500 Terminal Tower, 50 Public Square, Cleveland, OH 44113-2241.

Fidelity Builders Supply, Inc. ("Defendant") is hereby requested to answer under oath the interrogatories numbered 1 to 58, inclusive, as set forth below, within twenty-eight (28) days of the time service is made upon Defendant, in accordance with Ohio Civil Rule 33.

INSTRUCTIONS

1. Answer each interrogatory separately and fully in writing under oath, unless it is objected to, in which event the reasons for objection must be stated in lieu of answer.

2. An evasive or incomplete answer is deemed to be a failure to answer under Ohio Civil Rule 37(A).

3. Defendant is under a continuing duty to seasonably supplement its response with respect to any question directly addressed to the identity and location of persons having knowledge of discoverable matters, and the identity of each person expected to be called as an expert witness at trial and the subject matter on which he or she is expected to testify. Furthermore, Defendant, pursuant to Rule 26(E) of the Ohio Rules, is under a similar duty to correct any incorrect response when Defendant later learns that it is incorrect, including in such

supplemental answer the date upon and manner in which such further or different information came to Defendant's attention.

4. Unless otherwise specified, each of these interrogatories are meant to apply to the time period from 1920 until the present.

5. Should Defendant assert a privilege with respect to any information, Defendant is requested to provide the following as to each such document or item of information:

- (a) The type of document or information (e.g., letter, notebook, telephone conversation, etc.),
- (b) The date of the document or transaction involving the information;
- (c) Identification of the author and/or all participants with respect to the information;
- (d) Identification of the signatory or signatories of the document, if any;
- (e) Identification of the document's current custodian;
- (f) The present whereabouts of the document and/or the names of all persons with personal knowledge with respect to the information; and
- (g) A statement of the grounds on which the claim of privilege rests with respect to each such document or piece of information withheld.

6. If your answer states that Defendant is undertaking an investigation of the subject matter of the interrogatory, state when the investigation began, what steps comprise the investigation and what documents are being reviewed as part of the investigation.

7. The following terms are defined as follows for the purpose of these interrogatories:

DEFINITIONS

As used in this set of Interrogatories, the following terms mean:

1. The words "Defendant," "You," "Your," or "Your company," all mean the corporate Defendant separately answering these Interrogatories, and any of its merged, consolidated, or acquired predecessors, divisions, subsidiaries, foreign subsidiaries, foreign

subsidiaries of predecessors, and/or affiliates. This includes, but is not limited to, those known to have mined, manufactured, sold, marketed, utilized or distributed asbestos or asbestos-containing products or that incorporated asbestos or asbestos-containing products at any work site. This definition includes present and former officers, directors, servants, agents, employees, and all other persons acting or purporting to act on behalf of the corporate Defendant or its predecessors, subsidiaries, and/or affiliates known to have mined, manufactured, sold, marketed, utilized or distributed asbestos or asbestos-containing products. "Predecessors" means any business firm, whether or not incorporated, which had all or some of its assets purchased by you or came to be acquired by you whether by merger, consolidation, or otherwise known to have mined, manufactured, sold, marketed, utilized, or distributed asbestos or asbestos-containing products. "Subsidiaries" means any business firm, whether or not incorporated, which is or was in any way owned or controlled, in whole or in part by Defendant or its predecessors and which is known to have mined, manufactured, sold, marketed, utilized or distributed asbestos or asbestos-containing products.

2. "Document" includes, but is not limited to, correspondence, letter, memoranda, message, note, report, cable, telegram, photograph, film, tape, and all other written communications of every kind and character; note, recording disk, or any other record of oral communication; microfilm; worksheet; schedule; exhibit; demonstrative aid; letter; contract; agreement; deeds, bills of sale, deeds of trust, security agreements, leases and other instruments or documents of title; maps; diagrams; logs; summaries; printouts; graphs, charts; compilations, tables; publications; manuals; minutes; by-laws; articles of incorporation; resolution; shareholder endorsements; partnership documents; minute books, diaries; calendars, bank statements, tax returns; lists; tapes, video tapes; and any other data compilations from which information can be obtained and translated.

3. "Identify" means to give the date, title, origin, author, and addressee to enable plaintiff to retrieve it from a file; and further, identify means to give the name, address, position, title, and whether a person is employed or not employed by Defendant.

4. The words "person" or "persons" include natural persons, firms, partnerships, associations, joint ventures, corporations, and any other form of business organization or arrangement, and officers, directors, shareholders, employees, agents, and contractors of any business organization or arrangement.

5. The words "meeting" or "meetings" may mean any coincidence or presence of any persons, whether or not such coincidence or presence was pre-arranged, was formal or informal, or was in connection with some other activity.

6. The words "describe" or "description", when referring to a place, thing, or occurrence, mean to identify with sufficient particularity the place, thing, or occurrence so as to enable one to locate, examine and fully comprehend or understand the place, thing, or occurrence described.

7. The words "product containing asbestos fibers," "asbestos-containing products," or "asbestos products" all refer to any products or materials prepared in any way for sale and/or distribution that contained any kind of asbestos in any possible form. The words "asbestos materials" refer to any and all materials, substance, or matter used or assembled or fabricated during the manufacture of a product, and that contain at least some asbestos fibers. "Product" includes, but is not limited to, pipecovering, turbines, cement, block, gaskets, packing, plaster, joint compound, floor and ceiling tiles, mastics, boilers, raw fibers, fireproofing, shingles, panels, sheets, boards, millboard, refractory cement, boilers, firebrick, brake and clutch linings, finishing compound, texture, and other construction, building, drywall, lath and insulation materials.

8. The words "design changes," or "modifications" mean alterations in the makeup and/or components of a particular product, including but not limited to, variations in the amount or type of asbestos used in the process of manufacturing the product.

9. The words "distribute," "distributed," "distributor," or "distribution" all refer to the sale, marketing, dispersal and/or shipment of asbestos-containing products for purposes of their sale, resale and/or for purposes of filling orders provided by other business concerns. The word "distributor" specifically refers to a company or its sales representatives, whether dependent or independent, responsible for sales or marketing of products.

10. The words "marketed," or "market" mean and include all efforts to assist in the distribution and/or sale of products. More generally, these terms refer to only efforts on your part or the part of manufacturers or distributors to sell or otherwise distribute products.

11. The words "medical advisory capacity" refer to the duties, abilities or capabilities of any member of Defendant's staff, or any individual or organization who has contracted with Defendant, to provide services of a medical nature, including but not limited to providing medical advice.

12. The words "trade organization," or "trade association" mean any organizations or associations of business or industrial entities that are associated and/or meet for the purpose of achieving common goals and/or exchanging information related to common needs or interests, and/or learning information or facts of interest to the various members of the organization or association.

13. The word "plant" means a manufacturing or assembly facility where products are assembled, manufactured, constructed, fabricated, or where component parts, materials, substances, or matter of such products are fabricated, assembled, or manufactured or are prepared for further fabrication and/or assembly.

14. The word "manufacture," or "manufactured" means to fabricate, to construct, to assemble, prepare for fabrication or assembly, or any other action taken prior to completion of the product or material before the time of its shipment.

15. The words "sales materials," or "written sales materials" mean any and all documents or literature of a promotional nature that were created or printed for the purpose of assisting in the marketing or distribution of the products. Such documentation may include, but is not limited to, sales invoices, order slips, and other written indicia of orders received and sales made.

16. The words "rebranding agreement" mean an agreement of any kind whereby one party to the agreement is provided products by the other party to the agreement and the agreement contemplates that the first party will place the brand name of its choice upon the products, either by repackaging or otherwise, and then proceed to sell, market, distribute and/or place the product in the stream of commerce, utilizing its new brand name.

17. The words "research" or "research department" refer to efforts, whether scientific or otherwise, to develop new and/or different types of products, processes or designs of pre-existing products and is meant to incorporate all efforts that specifically contemplated the possible alteration of products.

18. The words "medical department" refer to an individual or a section or group of individuals working for Defendants, either directly or in a contractual capacity, whose purpose was or is to provide guidance, assistance, or advice concerning any aspects of medical health, including but not limited to, the safety of Defendant's workers and the safety of individuals using products manufactured by Defendant.

19. The words "industrial hygiene surveys" mean surveys, tests, interviews, or other procedures taken or effectuated for the purpose of determining air quality, air contamination, dust content, safety of a facility or hazards at any site or facility.

20. The words "health hazards," or "potential health hazards" refer and relate to any injury, effect, damage, scarring, wound, impairment or disability of any part of the human anatomy, including but not limited to the lungs and lung linings.

21. The words "test" or "testing" are used in their broadest sense, including but not limited to, studies of atmospheric dust samples, studies of the concentration of asbestos in such airborne test samples, studies of the lung conditions of workers (by x-ray or other means of medical surveillance), pulmonary function studies of workers, animal studies, pathological studies, industrial hygiene studies, risk assessment studies, cost-benefit analyses and any other studies on the product concerning health and safety required by any governmental agency.

- (a) The names of the products tested and the dates of said tests;
- (b) The name, address, and job classification of each person and/or agency conducting said tests;

- (c) The results of said tests;
- (d) Whether, as a result of any tests conducted, any products were removed from the market;
- (e) The names of all products removed from the market as a result of said tests.

ANSWER:

Not applicable.

22. Has Defendant ever conducted or caused to be conducted any studies concerning the effects of the inhalation of asbestos dust and/or fibers on workers or other persons applying, using and/or working around any of the asbestos products manufactured, sold, distributed and/or relabelled for distribution by you or your predecessor? If so, please state:

- (a) The dates and nature of such studies;
- (b) The names and addresses of persons conducting such studies;
- (c) The purpose of such studies;
- (d) Identify and list those persons to whom such reports were given and the date of such dissemination;
- (e) State any publication or other written dissemination of the results of such studies;
- (f) State the nature of any action to eliminate or minimize the inhalation of asbestos dust fibers; and
- (g) Attach a copy of reports based upon such studies.

ANSWER:

No.

23. Before placing in the market the asbestos-containing products that Defendant, mined, manufactured, sold, marketed, installed or distributed on the market, did Defendant make or cause to be made, any studies to determine whether their asbestos-containing products would be hazardous to people? If so, please state:

- (a) The date of said studies;

- (b) What studies were done; and
- (c) The titles of each study.

ANSWER:

Not applicable.

24. Please state whether or not Defendant ever conducted or caused to be conducted any tests in the field (where asbestos-containing products were applied, removed or utilized) to determine the nature and extent of asbestos dust and/or fiber exposure to insulators, applicators, fellow employees, or other workers removing and/or tearing out asbestos-containing products, and/or other workers in the vicinity thereof? If so, please identify:

- (a) The date, place and nature of each and every test;
- (b) The particular asbestos-containing products to which each test applied;
- (c) The results of each test with particular reference to the number of asbestos fibers per cubic centimeter of air found at each site; and
- (d) The persons to whom the results said tests were given and the date of such dissemination.

ANSWER:

No.

25. Please state whether or not Defendant ever obtained any knowledge concerning the likelihood of asbestos being hazardous to human health. If so, please state:

- (a) When Defendant first became aware of the hazardous potential of asbestos dust and asbestos fibers;
- (b) The manner in which the Defendant, Defendant's predecessor, or Defendant's subsidiary companies first obtained this knowledge and became aware of said hazards and from what source this information was obtained;
- (c) What information was disseminated within Defendant's company, or its subsidiary or predecessor regarding such adverse consequences or effects;
- (d) Whether any such information is still maintained by Defendant or its subsidiary or predecessor in any written form.

- (e) The name, address and job classification of the custodian of such information.

ANSWER:

No.

26. Please state when Defendant first became aware of the possible association between inhalation of asbestos dust and/or fibers and the contraction of asbestosis and cancers including, but not limited to gastrointestinal cancer, laryngeal cancer, renal cancer, lymphoma, lung cancer and mesothelioma. As to each disease or condition, please state the source of that information, including a description of all tests conducted relative to the possibility of such a relationship.

ANSWER:

Objection. Calls for medical conclusion.

The Complete Green Line
of Refractory Products

A. P. GREEN . . .

**modern enough to line
moon ship launch pads,
Old Fashioned enough to
believe in customer service
and satisfaction.**

It was no accident that the A. P. Green Refractories Co. was selected to provide the refractory materials . . . and their installation . . . for all of the Mercury, Gemini, and Apollo rocket launch pads at Cape Kennedy. Such giant steps for mankind had to have the best.

The same research and manufacturing team that provided America with the best in space age refractories combines to provide America's best in quality refractories for every industrial requirement. There is an A. P. Green product specifically designed to give you longer, better, more economical service.

In addition to an unbeatable line-up of products, the A. P. Green distribution system composes a vast network of sales offices, distributors, and dealers strategically located to provide prompt delivery on every order.

Large warehouse stocks, plus the assistance of an engineering group experienced in the latest recommendations and installation techniques of refractories, are your assurance of the most advanced products and service.

There is an A. P. Green representative near you. He is listed in the yellow pages of your telephone directory . . . or write direct.

We're not too far out in space to want to help!

A. P. Green Refractories Co. —
Mexico, Missouri plant and
executive offices.

The A. P. Green Refractories Co. makes available to industry a complete line of refractory products and services. There is an A. P. Green product specifically designed to fulfill more efficiently every industrial refractory requirement. These products include firebrick of all qualities—low duty, medium duty, high duty and super duty; 50% to 99% alumina; semi-silica; silica; mullite; silicon carbide; zircon; and, a full line of basic brick including chrome, chrome-magnesite, magnesite-chrome, magnesite, and metal encased. In addition, the Green Company manufactures insulating firebrick, industrial insulations, and all types of mortars, plastics, castables, ramming mixes, gunning materials, and special refractory mixes.

The Green Company distribution system composes a vast network of sales offices, distributors, and dealers strategically located to provide prompt delivery of every order.

Manufacturing plants are located in Mexico and Fulton, Missouri—Woodbridge, New Jersey—Sulphur Springs, Texas—Jackson, Massillon, and Oak Hill, Ohio—Climax, Tarentum, and Philadelphia, Pennsylvania—Troy, Idaho—Pueblo, Colorado—Macon, Georgia—Birmingham and Bessemer, Alabama—Morris, Illinois—Taylor, Michigan—Weston and Acton, Ontario—and in Claybank, Saskatchewan. Producing plants are also located in Argentina, Chile, France, Germany, India, Italy, Mexico, New Zealand, Norway, South Africa, Spain, and the United Kingdom.

RESEARCH

PRODUCT DEVELOPMENT

QUALITY CONTROL

The refractories industry is now involved in the most extensive research and development expansion that it has ever known. Anticipating the future requirements of our customers and fulfilling present demands—resulting from modern technological advances in a multitude of industries—calls for intense concentration of effort in both basic and applied research.

Every day of every year A. P. Green research specialists are constantly striving toward the development of better products and better techniques of refractory production to serve the ever-increasing needs of modern industry. These ceramists, engineers, and laboratory technicians have established quality control procedures for use in each of the A. P. Green plants throughout the world. These control measures are applied from clay selection, through manufacture, to final packaging and shipping to your job site.

This constant vigilance toward assuring the ultimate in quality control is your guarantee of the best possible product for your specific needs. Quality is a byword at the Green Company . . . in raw materials . . . in manufacture . . . in the finished product . . . in personnel . . . and in customer service. Call on us to assist in solving refractory problems. Our facilities and staff of experienced personnel are available to serve you.

9"x4½"x2½" SERIES—IN STOCK . . .

Illustrated here are the standard shapes of 9-inch firebrick shapes which are specifically designed to be used in connection with the Standard 9-inch firebrick, size 9 x 4½ x 2½ inches. Sometimes the Standard 9-inch firebrick is called "Square" or "Straight". We recommend the use of these 9-inch Shapes where needed, rather than cutting a Standard 9-inch Straight. Cutting is expensive.

MIZZOU CASTABLE — M I Z Z O U

CASTABLE is a high alumina castable for use in applications to 3000° F. Even at these high temperatures, it demonstrates remarkable properties. Its high alumina content — 60-63% — makes MIZZOU CASTABLE a true 3000° F. product and provides good resistance to a number of different slags. It is permanent in volume . . . actually showing expansion rather than shrinkage at high temperatures. Its excellent resistance to vitrification assures longer service life. The spalling resistance of MIZZOU CASTABLE is truly outstanding for a castable material . . . only 1-3% loss in the super duty panel spalling test.

In addition, MIZZOU CASTABLE has good strength. This structural strength throughout its entire temperature range provides stability in furnace walls and arches. Packaged in 100-pound multi-wall bags. 140 pounds required to pour one cubic foot.

SUPER HYBOND

Shipped in 100-pound cartons. 145 pounds required per cubic foot.

This characteristic makes SUPER HYBOND ideal for the construction of flat suspended arches. The top surface of these arches is generally air-cooled which prevents the development of full strength when a regular plastic is used. SUPER HYBOND gives added strength here, because it develops a strong bond throughout the entire thickness of the arch.

When high temperatures, severe spalling conditions or slagging prohibit the use of a castable refractory, SUPER HYBOND will insure a monolithic lining of exceptionally high strength.

NOTE: SUPER HYBOND should not be used in enamelware or ceramic glazed ware furnaces, bright annealing furnaces, controlled atmosphere furnaces, furnaces heated by electric elements, or in any other furnace where a small percentage of sulphur is detrimental. Specify A. P. Green QUIK-PAK or SUPER-PLASTIC in these furnaces.

SUPER HYBOND is sold in Canada under the brand name "SUPER BOND"

A. P. Green SUPER HYBOND is a special super duty plastic specifically created to meet the need for a plastic refractory that develops high strength throughout its entire thickness—regardless of furnace operating temperature or total thickness of the furnace lining. In a SUPER HYBOND furnace lining, the back or cool portion against the casing will form a strong bond as soon as enough heat has been applied to dry it.

Mortars

'SAIRSET

'SAIRSET' is a wet, high temperature, air-setting bonding mortar that protects firebrick linings against destructive spalling, reduces joint erosion due to chemical attack of slags or dust laden fumes, and prevents penetration of joints by molten metal or fluid slag. It forms a strong bond at all temperatures — a bond stronger than the brick itself.

'SAIRSET' gives outstanding service in all types of boilers, ceramic kilns, rotary kilns, ladles, flues and stacks, and industrial furnaces. It is ideal for laying all types of fireclay and fireclay insulating firebrick. 'SAIRSET' welds the brick into a one-piece unit at temperatures too high for less refractory mortars — or at temperatures too low for a good ceramic bond.

'SAIRSET' stays in suspension in the mortar box. It comes on the job ready-mixed to trowelling consistency — with all of its plasticity and other properties fully developed for maximum efficiency.

'SAIRSET' is packaged in ready mixed form . . . no long soaking period is required to develop the plasticity and smooth workability.

W H I T A C R E VACUUM DRY PRESSED FIREBRICK

Attractive Whitacre Greer Dry-Pressed fireplace bricks brighten up the hearth while reflecting maximum heat into the living area.

- Accurate Dimensions. Dry pressing provides consistency and uniformity for easier installation and a high quality finished product.
- Variety of sizes.
- ASTM C-1261 Firebox Brick for Residential Fireplaces

NOW... ADD OLD WORLD CHARM with COBBLED FIREPLACE BRICK

Buff or warm red cobbled fireplace bricks lend an old world look to the hearth, adding charm to any fireplace, even before logs are ignited.
