Subject: Invitation: Advancing Scientific Integrity in the Federal Government
Flag: Follow up

Hi Brittany,

Your colleague Liz Bowman said you might be interested in attending this roundtable discussion. I hope you can make it.

You are invited to a roundtable discussion on:

Advancing Scientific Integrity in the Federal Government

Existing Tools and Potential Improvements

Featuring Dr. Anne LeHuray, Ph.D.

With a Ph.D. in geochemistry from Florida State University, Dr. LeHuray has received National Science Foundation grants for academic research at Columbia University, as a contractor to EPA and NASA, and as an environmental consultant to the Department of Energy. For the past two decades she has served as a trade association scientist and executive, interfacing with regulatory and non-regulatory government agencies to translate science into policy. She is currently the executive director of two small 501(c)(6) associations: the Naphthalene Council and the Pavement Coatings Technology Council. She is an appointed member of the Great Lakes Water Quality Agreement Annex 10 (Science) Extended Subcommittee and is active in the Science Integrity Subcommittee of the Society of Environmental Toxicology and Chemistry. She is also part of an effort to revitalize the Institute for Regulatory Science.

Please note that this is an invitation-only event and RSVPs are required.

Date: March 1, 2017

Location: 1310 L Street, NW, #700, Washington DC 20005

Time: 12:00 PM to 1:30 PM

RSVP to: Angela.logomasini@cei.org

Angela Logomasini, Ph.D.
