Subject **STANDARD OIL COMPANY OF NEW JERSEY
PYDRAUL TOXICITY**

On Thursday and Friday, March 28 and 29, we in the Sales Department met with representatives of the subject company to discuss a possible arrangement for Esso's distributing Pydraul. The ESSO representatives asked that we have you write giving full information on the toxicity of Pydrauls 150, 200, 600, and AC. They would like to have information covering all toxicological data, where run, and interpretations. Would you please send this information to Mr. James O. Iofstrom, Standard Oil Company of New Jersey, Room 2615, 30 Rockefeller Plaza, New York 20, New York.

Thank you.

M. C. Plummer
