REINFORCEMENTS

Unless otherwise specifically objected to, it was agreed to start testing as soon as practical, in accordance with the "NIMA DUCT SYSTEMS COMMITTEE MINUTES OF TECHNICAL COMMITTEE - J-M RESEARCH & ENGINEERING CENTER - May 7, 1968," as distributed by C. E. Ernst.

DUCT LINER SPECIFICATION

The draft dated May 20, 1968, was reviewed. The Specification shall be finalized by June 1, 1968.

The final draft shall be given to D. MacCurdy for suggestions as to its final form.

The specification shall be offered to SMACNA for possible inclusion in their low pressure manual.

FM PROJECT #17948

The draft dated April 16, 1968, was reviewed. It was agreed to hold the project in abeyance until further testing is concluded. C. E. Ernst is to supervise further calorimeter and 24 foot fire tests at FM.

FEDERAL AIR DUCT SPECIFICATION

The specification was reviewed. W. T. Irwin is to circulate the revised draft to the Committee for comment.

HEALTH AND SAFETY

Short term project - The air sample evaluation taken on a duct system in the P. Cakington House, Milwaukee, Wisconsin, is to be obtained from Kettering Laboratories. As soon as they are received, they will be distributed to the Committee.

Long term project - The Committee desires to meet with the Health and Safety Committee for consultation.
