

Manufacturing Chemists Association
TECHNICAL TASK GROUP ON VINYL CHLORIDE RESEARCH

Agenda for Meeting

Sheraton O'Hare (North)
9:00 AM

Chicago, Illinois
February 20, 1974

1. Minutes of the Meeting of January 25, 1974
 2. Report on Animal Exposures Studies -- Industrial BIO-TEST
Meltoni - 45 min. - IBT in attendance Staff Keplinger, Gordon, Decatur, Ind. As. Sub
 3. Report on Epidemiological Studies -- Dr. Gaffey
 4. Consideration of Dow Research Proposals
 5. Consideration of Other Proposed Research Projects
*① Fed PVC
② Inhal PVC
then absorption data
available
these acute exposure*
 - 5.1 Mutagenicity Studies
 - 5.2 Three-generation Reproduction Studies
 - 5.3 Feeding Studies
 - 5.4 Prospective Epidemiology Studies
 6. Recommendations on Revision of SD-56 Chemical Safety Data Sheet for Vinyl Chloride
 7. Discussion of Possible Reactivation and Expansion of Case Registry
 8. Development of Plans for 11th International Cancer Congress
 9. Future Meeting Schedule
- Delay* 5.5 Mutagenic studies - { *dominant lethal - test male. observe offspring*
cytogenetic
hist-mediated
- Refer to SPI* 5.6 3 generations reproduction -- No.
5.7 Feeding study monomer - shell may have data on a
PVC-VC control for anthelmintic study.
SPI may have feeding data
5.8 Prospective epidemiological study. *tabled. Refer to Med.*
5.9 Feeding of PVC - *defer.*
6.0 Inhalation in polymer. *(over)*

URL 22918

Ben Zivich

Rate of migration of OC from particles directly related to dia.

None in respirable fraction.

Since concerned re my dusty area.

Has offered Donnelly tests on free physical exposure to Patterson plant union people. Others, etc.

Dust inhalation studies - get costs.

~~Ben Zivich~~

Single massive exposure (tanker rupture etc)

Melloni has work underway.

Intervention suggests follow people who have had short massive exposure.

SD-Su data sheet - wait until more comm. work done.

absence meeting - speakers picked.

Melloni will review. thinks can be done.

European group planning a separate special meeting of experts.
Intervention Copier.
