Dear Dr. Kehoe:-

Will you please ask Dr. Cholak or Dr. Bambach to supply the titles of the articles given in their bibliography of paper #3, "Measurement of Industrial Lead Exposure by Analyses of Blood and Excreta of Workmen" on the galley-proof when it reaches them? I should like to have them have these titles ready when the galley reaches them, so that we will not lose any time. The present form of their bibliography is not complete according to our editorial policy. 1/4/43

Dr. Dreessen's paper, #5, "Health of Lead-Exposed Storage Battery Workers" needs legends for Figures 1, 2, and 4. 1/6/43

I am sorry to have to ask you to attend to this, but we are short-handed here, and I have not been able to look over the papers in detail until just now, when it is time to send them to the Press.

Sincerely yours,

Margaret S. Perry
