SUBJ: PROGRESS REPORT FOR WEEK ENDING FEBRUARY 14, 1986

VISTA

1. Advised plants on DOT regulations for shipments of waste paint, waste alpha methyl styrene, API separator oil, and methyl chloride in portable containers.
2. Drafted new Material Safety Data Sheets for Aberdeen's API Separator Oil, carbon tetrachloride, glacial acetic acid, and nitrogen.
3. Researched FDA regulations regarding the use of CATAPAL Alumina as a toothpaste thickening agent.
4. M. M. Goodreau attended a one-day seminar on the Toxic Substances Control Act, OSHA Hazard Communication Seminar, Resource Conservation and Recovery Act, and lube-oil technology.
5. Issued letter on labeling requirements for new CATAPAL Alumina bags.
