Subject: Building Heights, etc.

Debbie,

Please see the attached file for the building heights you requested. The second sheet also shows heights and coordinates for several islands on some of the roofs. The third sheet has revised UTM's for two of the vents. I have faxed sections of Joe Gaston's map for the islands. Joe will send a color copy of this map to you via plant mail.

The second file contains the data I sent earlier with stack data and surfactant rates, with the revised UTM coordinates.

Chris Shoop
