SUBJ: PLANT VISIT

VISTA

As we discussed, I plan to visit the plant on September 9. The purpose of the visit is to determine your needs in the area of OSHA compliance. Specifically, I will assess survey needs in the area of noise and lead. Also, I will review the OSHA Hazard Communication Standard and Recordkeeping Standard as it applies to the plant. To accomplish the above, I would like to do a walk-through survey of the plant, review your in-plant process additives use and discuss operator routines.

I have enclosed copies of the Lead, Noise, and Hazard Communication Standards. Please call if you have questions at this time. I'll be in touch before the 9th.
