

Complete Wheel Alignment Sets

There's an AMMCO Wheel Alignment equipment package to meet every need—whether you're already doing alignment work or are planning to get into this profitable and growing service business. AMMCO Wheel Alignment Equipment is designed to get the job done fast and right the first time. Gauges are easy to use and built to stay in service. You can trust our Gauges because every AMMCO Wheel Alignment Gauge can be checked for accuracy and recalibrated by its owner when required. There's a choice of 4 Racks—plus Portable Wheel Stands and every set includes the Gauges, equipment and tools shown on Page 25.

Free Wheel Alignment Training Courses

are offered at the AMMCO Training Center in North Chicago, Illinois. Ask your AMMCO Representative or Jobber for details.
