SECTIONAL SERIES

47 in. water line. Can be put into basement through 2 ft door. Waterfilm boilers are the culmination of over 35 years of practical and successful experience in designing and manufacturing low pressure heating boilers. Waterfilm boilers are built of the proper and very best materials obtainable and manufactured by skilled workmen in a modern Plant that has specialized in steel fabrication for over 50 years, being one of the few plants that have been qualified to do a A.S.M.E. Code welding.

Steam Boilers—(40 sizes) 1250 ft to 20,000 ft.

Water Boilers—(40 sizes) 2000 ft to 32,000 ft.
