Many thanks for clarifying 5.1.2e [redacted].

Looking forward to hearing if one of your sister plants wishes to participate in the EU or OECD studies.

Have a good day.

Hi 5.1.2e

I had a further question that arose on reflection after yesterday's meeting. You explained how a number of your 5.1.1c products are used in processing equipment for human food production. Do you know whether and to what extent your products are also used in equipment for animal feed and pet food?

Have a good weekend!

Best regards

Hi 5.1.2e

Good to meet you today and thank for the informative discussion.

As promised, please find below details of two EU trade associations that might be of interest through which to make your representations.

As mentioned to 5.1.2e please feel free to pass my details onto your colleagues for possible follow up discussions. We didn't have time to discuss, but as I referred to in an earlier mail, I am also leading another project for the OECD looking at the market for PFAS/fluoro substances and alternatives used in coatings, paints and varnishes (excluding in the food industry). Perhaps some of the other Aalberts facilities may be interested to discuss these topics?

Good morning 5.1.2e

Thanks for your positive reply. I have sent you through a WebEx invitation for 15.00 CET on 21 Jan. Please feel free to forward this to your colleagues who wish to participate.

We look forward to speaking then.

Best regards

Dear 5.1.2e,

Thank you very much for your completed questionnaires.

I noticed you refer to tank linings and we would be interested to learn more about for example whether 5.1.1c linings are used in tanks to transport liquid food. We would also be interested to discuss the use of coatings in food and feed packaging. A further area which we are working on in a separate project is the use of PFAS and 5.1.1c in coatings generally for the OECD. I would therefore like to invite you to have a follow up call in the next few weeks. Would you have availability on Thursday 14 or 21 January?

Best regards

Dear 5.1.2e

In the attachment you'll receive the files which I have filled as far as possible.

As you can see, for all the three files the story is about the same.

If you have any questions, need more information or examples, please don't hesitate to contact me.

Best Regards

Dear 5.1.2e

Thank you very much for your mail and kind offer to help with our on-going projects on PFAS in the food industry and PFAS that are fluorinated gases.

Previously we have sent out questionnaires to stakeholders to invited their feedback and these will be used as a possible basis for further discussion. I attach the questionnaires for your consideration. Please feel free to only complete the questionnaires relevant to your business. We have asked other stakeholders to complete these by the end of this year. However, because this is short notice may I invite you to complete and return the questionnaires by early January?

Best regards

Dear mr. Dear mrs.,

Looking at the current thoughts of the EU about the PFAS regulation, i've noticed (via Chemours) that you are working with several companies to collect information from stakeholders about this topic.

We, as a location from Aalberts Surface Treatment in Beuningen, the Netherlands are working with (fluor) polymers (f.e. in food industry, packaging, medical, etc.) which makes this topic also of our interest.

I'm writing you this email, if and how I can be of your support?

Looking forward to your answer,
Best Regards,
