SUBJECT INDEX TO VOLUME IX

This is a subject index to all the reading matter in the ABSTRACT OF THE LITERATURE OF INDUSTRIAL HYGIENE, and one should, therefore, look for the subject word. The name of the author follows the subject entry in parenthesis.

For author index, see page 263.

	PAGE		PAGE
ABSENTEEISM of workers in Holland	126	ACCIDENTS, industrial, in U. S., to 1925..	210
owing to accidents (Brundage).....	234	industrial, increase in (Hatch).....	67
ACCIDENTS, <i>see also</i> under Safety, specific occupations, and specific parts of body.		industrial, increase in (Stewart).....	67
ACCIDENTS, absenteeism due to, among employees of Edison Electric Illuminating Co. of Boston, 1915-1924 (Brundage).....	234	industrial, projected Belgian law pertaining to.....	166
accident law, industrial (Leymann).....	241	industrial, reduction of, department of labor assists in (McBride).....	154
accident therapy under German legislation of 1925 with regard to accidents and diseases (Rosenburg)....	228	industrial, to employed minors in Wisconsin, Massachusetts, and New Jersey (Gray).....	13
and diseases, international congress of, <i>see</i> International Congress.		injured worker's viewpoint (Moses) ..	98
at metallurgical works in U. S., 1924 (Adams).....	116	lost time, reduction of, at Pullman Works (DeMotte and Brand).....	99
coal mine fatalities in U. S., 1925 (Adams).....	210	management's influence keeps accident rates low (Briggs).....	154
coal mine, relation of atmospheric conditions to (Vernon, Bedford, and Warner).....	216	mental disease and (Enke).....	154
coke oven, in U. S., 1925 (Adams)....	210	metal mine, in U. S., 1924 (Adams)....	116
compensable, to employed minors in Wisconsin.....	103	occupational, in hospitals, French law pertaining to.....	230
compensated in New York State, 1914-1922, 1924-1925.....	20, 229	prevention of, adaptability to work as factor in (Bolt).....	46
compensation for children injured while illegally employed.....	229	prevention of, factor in safety (Schram).....	68
conference on prevention of, <i>see</i> Industrial Accident Prevention Conference.		prevention of, factors in organizing for future (Lansburgh).....	68
due to explosives in metal mines of Arizona (Gardner).....	210	prevention of, in metal trades (Turner).....	211
due to explosives on Witwatersrand mines (Kotzé).....	117	prevention of, in Ontario (Morley)....	82
electric (Zimmern).....	215	prevention of, in work with grinding machines (Bronewsky).....	154
electric, and injuries (Pfah).....	72	prevention of, lighting as factor in (Rademacher).....	164
electric, rescue work in (Jellinek)....	214	prevention of, organization for (Edsall).....	69
electric, skin changes in death from (Strassmann).....	215	prevention of, progress in (De Blois).....	68
garage.....	113	prevention of, relationship of first aid to (Booth).....	69
garage (Dettling).....	136	relation of fatigue to (Gardiner).....	71
in coal mines of Tula (Kowarsky)....	153	statistics and prevention of, at Broken Hill Associated Smelters (Dey).....	209
in Dobrusch paper factory (Asbel)....	152	to women and minors, recent figures on.....	103
in industry (Stephenson).....	118	to working children in Pennsylvania, 1923 (Lauder, Evans, and McConnell).....	75
in laundry trade (Verstraete).....	44	workmen's accident insurance in Italy, 1923.....	81
in mines of Prussia.....	153	ACID, <i>see</i> under names of specific acids.	
in petroleum industry of California, 1923 (Miller and Steidel).....	117	ACTINOTHERAPY, <i>see</i> Phototherapy, and Ultraviolet Rays.	
in petroleum industry of Oklahoma, 1915-1924 (Fowler).....	210	AEROSOLS in industry (Gibbs).....	35
in textile mills, Moscow (Schaposhnikow and Mednikow).....	43		

	PAGE		PAGE
AGED worker, safe occupations for (Carey).....	70	ARSENIC, relation of, to cancer (Roffo and Correa).....	134
AGRICULTURE, length of working day in (Podgajetzky).....	47	rôle of, in tar cancerization in mice (de Coulon).....	134
processes and conditions on farms (Dunlop).....	240	ARSENIURETTED HYDROGEN poisoning (Labes).....	202
AIR, compressed, <i>see</i> Compressed Air.		ARSINE, <i>see</i> Arseniuretted Hydrogen.	
conditioning in weaving room of John B. Stetson Company, effect of, on loom production (Robinson)....	14	ARTERIOSCLEROSIS as occupational injury (v. Schnizer).....	134
conditioning, industrial, by unit system.....	239	ASPHYXIA, first aid in (Legendre).....	58
conditioning problems, practical application of temperature, humidity, and air motion to.....	102	ATMOSPHERIC conditions, relation of, to working capacity and accident rate of coal miners (Vernon, Bedford, and Warner).....	216
filters, device for testing.....	114	conditions, <i>see also</i> under Air motion, Heat, Humidity, and Temperature.	
filters, use of, in New York public library (Fedeler).....	121	pollution, apparatus for determining degree of (d'Arsonval and Bordas).....	121
filtration, metal filters for removal of dust from air (Berlowitz).....	6	pollution, curious aspects of (Owens).....	163
motion, importance of, to health of industrial workers and prevention of harmful effects (Koelsch, Rosenthal, Spannagel, and Wenzel).....	101	pollution, emission of dust by industrial chimneys.....	13
motion, <i>see also</i> under Atmospheric conditions.		pollution, exact methods for measurement of (Kershaw).....	119
ALABAMA coal mines, sanitary survey of (Meriwether).....	14	pollution, twelfth report of British advisory committee on, 1925-1926.	161
ALCOHOLISM, medicolegal (Zangger)....	136	ATROPINE, diseases caused by (Krüger).....	183
AMALGAM, dangerous nature of (Stock)....	88	AUSTRALIA, morbidity and mortality statistics of employees of New South Wales and Victorian railways.....	233
AMINO COMPOUNDS, aromatic, as blood poisons (Lipschitz).....	183	Regulation for prevention of lead and gas poisoning.....	80
AMMONIA, action of, on lungs (Horvath)....	27	Workmen's Compensation Act, medical aspects of (Kennedy).....	82
gas, mask for protection against (Fieldner, Katz, and Frevert).....	2	Workmen's Compensation Act, medicolegal aspect of, as applied to insurance companies (Skelton)....	82
ANEMIA, pernicious, occupational injury and (V. Schnizer).....	202	Workmen's Compensation Act of New South Wales, 1926.....	83
ANILINE poisoning from shoe dye (Patek).....	3	AUSTRIA and Argentina, reciprocal workmen's compensation agreement between.....	106
quantitative determination of, by diazotizing process (Pamfilow and Philipptschew).....	30	AUTOMOBILE exhaust gas, <i>see</i> Gas, automobile exhaust.	
ANKYLOSTOMIASIS, <i>see</i> Hookworm.		motor, use of motalin to relieve pounding of.....	29
ANTHRACOSIS and tuberculosis (Schlossmann).....	141	wages and hours of labor in motor vehicle industry, 1925.....	224
pulmonary, roentgenology of (Edling).....	60	BACK strains, low, rôle of iliolumbar ligaments in (Lowman).....	143
ANTHRAX, case of (Clément and Dausse).....	206	BAKELITE, <i>see</i> Resin, artificial.	
in last twenty-five years (Graf).....	192	BAKERIES, bakehouses welfare, Great Britain, 1927.....	242
in leather industry, statistics of (Rebentisch).....	38	BAKERS, dermatitis in.....	194
industrial, prevention of (Duckering).....	6	BARIIUM poisoning (Kipper).....	184
of face, edematous, resulting in meningitis (Krauss and Spikes).....	37	BATTERIES, storage, employees, effect of lead poisoning on generative capacity of.....	4
ARGENTINA and Austria, reciprocal workmen's compensation agreement between.....	106	storage, lead and gases in manufacture of (Wigdortschik and Kupriz).....	204
ARIZONA, accidents due to explosives in metal mines of (Gardner).....	210	BELGIUM, law prohibiting use of white lead in interior painting.....	106
ARSENIC, in gases, detection and determination of small quantities of (Lockemann).....	135		
in large chemical works (Hopmann)....	28		
in smoking and plug tobacco (Remington).....	183		

	PAGE		PAGE
BELGIUM, new law pertaining to occupational diseases.....	176	BRAIN, mental sequelae of carbon monoxide poisoning (Strecker, Taft, and Willey).....	181
old age insurance of irregular and migratory workers in.....	107	BRASS foundries, health hazards of, and laboratory studies on pathology of brassfounders' ague (Turner and Thompson).....	29
projected law pertaining to industrial accidents, occupational diseases, and health insurance.....	166	BREWERIES, working conditions in fermentation cellars of Leningrad brewery "Krassnaja Bavaria" (Wigdortschik).....	54
BENZENE, <i>see</i> Benzol.		BRIQUETTE, sulphurous, death due to fumes from (Gerbis).....	182
BENZINE, mass poisoning from, in rubber factory of "Krasny Bogatyr" (Frolow).....	28	BROKEN HILL Associated Smelters, accident statistics and accident prevention at (Dey).....	209
mixture with iron carbonyl, called "motalin," to decrease pounding of automobile motor.....	29	BULBS, flower, dermatitis from (Overton).....	115
BENZOL cements, rubber latex as non-poisonous substitute for.....	30	BURNS, cutaneous, treatment of (Bancroft and Rogers).....	144
poisoning as industrial hazard (Greenburg).....	94	occurrence of, in laundry trade (Verstraete).....	44
poisoning, diagnostic picture of (Gwyn).....	85	pathogenesis of death from (Greenwald and Eliasberg).....	44
poisoning in lacquer sprayers (Smyth).....	185	treatment of, by actinotherapy (Kessler).....	44
safe practice sheet for.....	94	treatment of, by tannic acid (Beck and Powers).....	144
BLASTING in heavy sulphides, gases from (Gardner, Jones, and Sullivan).....	3	CALCIUM HYPOCHLORITE, <i>see</i> Lime, chloride of.	
BLOOD, basophilic granular erythrocytes in early diagnosis of lead poisoning (Lehmann).....	34	CALIFORNIA petroleum industry, accidents in, 1923 (Miller and Steidel).....	117
basophilic stippling in Moscow typographers (Kojranski).....	174	CANADA, workmen's compensation legislation of, July 1, 1926.....	124
changes in lead poisoning (Schmidt).....	92	CANCER, arsenic in relation to (Roffo and Correa).....	134
elimination of carbon monoxide from (Stadie).....	29	carcinogenic substance in coal tar (Nieuwejaar).....	133
examination of roentgenologists (Weindrach).....	26	industrial liability for (Kilgore and Smith).....	177
influence of overheating body on (Sedlezky).....	156	occupational, in industries of Malaya (Kingsbury).....	170
new test for carbon monoxide hemoglobin (Kishi).....	180	of lungs in Schneeberg miners (Rostoski, Saupe, and Schmorl).....	57
poisons, aromatic nitro and amino bodies as (Lipschitz).....	183	of lungs in Schneeberg miners (Weber).....	169
potassium and calcium content of, under influence of bodily work (Kisch).....	156	of posterior urethra and prostate in workmen in chemical trades (Oppenheimer).....	169
preparations in suspected lead poisoning, demonstration of (Schwarz).....	59	role of arsenic in tar cancerization in mice (de Coulon).....	134
red blood picture in lead poisoning (Brückner and Spatz).....	174	skin, multiple, in gunsmith (O'Donovan).....	92
technic of staining basophilic stippled red blood cells (Schwarz).....	59	scrotal, due to antimalarial oil (Kingsbury).....	170
theory of action of nitrous gases on (Heubner and Meier).....	29	scrotal, in mule spinners (Robertson).....	201
BOILER factories, injury to auditory nerves of workers in (Leiser).....	41	CANNING industry in state of Washington, hours, wages, and conditions of women in.....	12
makers working with pneumatic instruments, occupational diseases of.....	109	CARBON DISULPHIDE poisoning (Arezzi).....	136
BRAIN, changes in, in carbon monoxide poisoning (Weiman).....	182	CARBON MONOXIDE a common peril (Fisher).....	148
fatigue during modified work (Beritoff).....	213		
meningocerebral manifestations of lead poisoning, experimentally induced tolerance in respect to (Weller).....	205		

	PAGE		PAGE
CARBON MONOXIDE, amblyopia caused by inhalation of (Murray).....	172	CHILDREN, accidents to, recent figures on.....	103
and hygiene (Kohn-Abrest).....	180	adaptation of work to young persons with spinal weakness (Richter)....	212
and hygiene (Nicoloux).....	112	Bill to regulate offices and employment of young persons therein, Great Britain.....	175
as cause of garage accidents.....	113	child labor in fruit and hop growing districts of northern Pacific Coast (Channing).....	12
determination of traces of (Davies and Hartley).....	3	child labor in tobacco growing areas (Byrne).....	76
elimination of, from blood (Stadie).....	29	compensable injuries to employed minors in Wisconsin.....	103
estimation of (Schoofs).....	172	compensation for injuries to, while illegally employed.....	229
gas mask (Bunte).....	113	health of working girl (Murrell).....	218
hemoglobin, new test for (Kishi)....	180	in factories, observations by lady medical inspector (Mackay).....	217
poisoning (Kerr).....	114	in industry attending part time school, investigation of (Rourke)....	219
poisoning and automobile exhaust, review of literature.....	88	inquiry into personal circumstances and industrial history of juveniles.....	160
poisoning, changes in brain in (Weiman).....	182	number and deaths of, as related to occupation of father.....	84
poisoning, diagnosis of, historical records of (Yant).....	137	of working mothers, see Nurseries.	
poisoning following use of explosives underground (Gehrmann and Ward).....	137	physical development of school-children employed in job work (Kose and Itani).....	219
poisoning in garage (Dettling).....	136	physical development of young workers in Sweden.....	160
poisoning, industrial, prevention of (Heubner and Forstmann).....	172	Regulations for protection of young people employed in hazardous occupations (Meyer).....	229
poisoning, medicolegal (Zangger)....	136	value of research in constitutional hygiene in selection and health control of youthful workers (Fürst).....	45
poisoning, mental and neurologic changes in (Borman).....	136	weight lifting by young persons (Overton).....	74
poisoning, mental sequelae of (Strecker, Taft, and Willey).....	181	CHINA, acute phosphorus poisoning in match manufacture in (Kiang)....	205
poisoning, new cause of (DeBalsac, Agasse-Lafont, and Feil).....	179	CHLORINE, determinations of low concentrations of, in chlorine-air mixtures, apparatus for (Yoe).....	3
poisoning on ship.....	147	safe practices in handling of.....	31
poisoning, Parkinsonism following (Grinker).....	88	CHLOROFORM poisoning among factory workers (Jakowlewa).....	58
poisoning, street risk of (Wilson, Gates, Owen, and Dawson).....	29	CHROMIUM plating establishments, protection of workers in (Förster)....	134
poisoning, treatment of, in chamber of varying pressure (Schmidt).....	180	CIRRHOSIS, see Liver.	
recorder and alarm (Katz, Reynolds, Frevert, and Bloomfield).....	86	CLINIC, industrial, skin diseases in (Parmenter and Dubreuilh).....	40
CARBON TETRACHLORIDE poisoning (Kehrer and Oudendal).....	148	CLOTHING industry, men's, in New York and Rochester, home work in.....	102
poisoning, acute, pulmonary hemorrhages in (Tabasaka).....	29	industry, men's, wages and hours of labor in, 1911-1926.....	224
CASHEW nuts, dangers in use of (Neubauer).....	41	CLOUDS, aerosols in industry (Gibbs)....	35
CELERY, occupational dermatitis from (Legrain and Barthe).....	143	COAL dust explosions, see under Explosions.	
CHAUFFEUR, see also under Taxicab, and Transportation.		dust, problems concerned with determination of fineness of (Greig)....	6
CHAUFFEUR, medical examination of... 164		mine, see Mine, coal.	
CHEMICAL factory, dermatitis caused by atropine and emetine in workers in (Krüger).....	183	miner, see Miner, coal.	
industry, cancers of posterior urethra and prostate in workmen in (Oppenheimer).....	169	tar, see Tar.	
industry, influence of, on development and progress of tuberculosis (Hergt).....	7		
works, arsenic in (Hopmann).....	28		
CHILDREN, accidents to employed minors in Wisconsin, Massachusetts, and New Jersey (Gray).....	13		
accidents to, in Pennsylvania, 1923 (Lauder, Evans, and McConnell)....	75		

	PAGE		PAGE
CODEINE, industrial poisoning in manufacture of (Goldberg and Leitis).....	138	COPPER poisoning, chronic (Mallory)...	4
COKE OVEN accidents in U. S., 1925 (Adams).....	210	utensils, poisoning from (Sternberg)...	91
COMPANIES		COTTON goods manufacturing, wages and hours of labor in, 1910-1926.....	224
Bunting Brass and Bronze Company keeps accident rates low (Briggs).....	154	industry, sanitary shuttles in (Schewalew).....	42
Edison Electric Illuminating Company of Boston, absenteeism in, on account of sickness and accidents, 1915-1924 (Brundage).....	234	mill community, housing and welfare work in (Beachley).....	223
Edison Electric Illuminating Company of Boston, accidents in, injured worker's viewpoint (Moses).....	98	mill sections of South, opportunities of industrial nurse in (Carrington).....	78
General Electric Company, Baltimore Works, glass shields on grinders of, reduce eye injuries (Muir).....	70	CYANIDE poisoning from shoe cleanser (Ullmann).....	4
Halle Bros. Co., dental service of (Swan and Thomas).....	122	CYANOGEN CHLORIDE, precautions against, in fumigating woollens (Kuhn).....	104
Macy (R. H.) and Company, psychiatric method in personnel problems of (Anderson).....	226	DENTAL service for department store employees (Swan and Thomas)....	122
Metropolitan Life Insurance Company interested in industrial safety (Coyle).....	154	service in industry (Watt).....	223
Michigan Bell Telephone Company, hay fever among employees of....	222	DERMATOSIS, <i>see</i> Skin diseases.	
Norton Company, fracture experience at (Clark).....	222	DIETS of workmen.....	155
Oneida Community Silver Industries plant holds annual chest clinic....	141	DINITROPHENOL as industrial poison (Lehmann and Schmidt-Kehl)....	31
Paclet Manufacturing Company, housing and welfare work of (Beachley).....	223	DIPHENYLAMINECHLORARSINE, toxicity of, and first aid treatment.....	112
Pullman Company porters all vaccinated.....	140	DIPHENYLCHLORARSINE, toxicity of, and first aid treatment.....	112
Pullman Works, reduction of lost time accidents in (DeMotte and Brand).....	99	DISABLED, rehabilitation of, <i>see</i> Rehabilitation.	
Sperry Gyroscope Company, vacation plan of (Lott).....	79	worker, employment practice for (Ritter).....	232
Stetson (John B.) Company, air conditioning equipment in weaving room of (Robinson).....	14	DISEASES and accidents, international congress of, <i>see</i> International Congress.	
Timken Roller Bearing Company, eye protection at charging furnaces of.....	70	DREAMS and the job (Pruette).....	105
Worthington Pump and Machinery Corporation, Laidlaw Works, sickness and accident prevention in (Turner).....	211	DUST, aerosols in industry (Gibbs)....	35
Yellow Cab Company, tests for transportation pilots (Snow).....	224	coal, inhalation of, and connective tissue in lung (Henius and Richert).....	141
COMPENSATION, <i>see</i> Workmen's Compensation.		coal, problems concerned with determination of fineness of (Greig)....	6
COMPRESSED AIR hammers, joint alteration from working with (Holtzmann).....	86	containing sulphuric acid, injuries to workers from (Schwarz and Deckert).....	202
pneumatic rupture of sigmoid (Block and Weissman).....	144	content of air, method of determining (Pigulewsky).....	148
practical jokes with.....	145	emitted by industrial chimneys, atmospheric pollution with reference to.....	13
COPPER, biologic function of, in animal metabolism (McHargue)....	10	explosions, <i>see</i> under Explosions.	
		in air of textile factories of Kharkov, prevention of (Silbernik and Saizew).....	206
		inhaled by human beings, quantitative determination of (Burstein)...	34
		injuries to lungs from, among working stone quarrymen (Böhme and Lucanus).....	36
		lead, in manufacture of storage batteries (Wigdortschik and Kupriz).....	204
		occupational injury from (Prinz-ing).....	6

	PAGE		PAGE
Dust prevention in packing department of Machorka tobacco factory (Golubzow).....	35	ENAMELING industry, spray coating processes investigated (Smyth).....	185
problem, factory, solution of (Hamilton).....	5	ENVIRONMENT, effect of, on worker (Gardiner).....	71
removal of, from air, use of metal filters for (Berlowits).....	6	EPILEPSY and occupational injury (Rubensohn).....	202
removal of, from handwork (McMahon).....	36	ETHYL fluid, rules and regulations for handling of (Kehoe).....	4
silica and other, effects of, on lungs (Sayers).....	190	gas, see Tetraethyl Lead.	
siliceous, analysis of (Salls).....	35	ETHYLENE TRICHLORIDE poisoning (Carrieu).....	182
sources of, in coal mines (Forbes and Emery).....	191	EXPLOSIONS, coal dust, rock dusting halts catastrophe at New Orient mine (Briggs).....	43
tobacco, new source of (Holtzmann).....	206	coal mine, humidifying methods in prevention of (Harrington).....	9
Dyes, dermatitis from dyed furs (Thibierge and Lacassagne).....	97	dust, chemical and engineering aspects of (Price).....	150
poisoning from aniline shoe dye (Patek).....	3	dust, hazard in fire fighting (Price)...	150
		grain dust, prevention of, by flue gas.....	69
EARS, injury to auditory nerves (Leiser).....	41	EXPLOSIVES, accidents due to, in metal mines of Arizona (Gardner).....	210
EFFICIENCY in fine work (typesetting by hand), relation between illumination and (Weston and Taylor).....	119	accidents due to, in Witwatersrand mines (Kotzé).....	117
investigation of processes and conditions on farms (Dunlop).....	240	use of, underground, as giving rise to carbon monoxide and oxides of nitrogen poisoning (Gehrmann and Ward).....	137
mental, influence of fatigue during maximum bodily exertion on (Ewig and Wohlfeil).....	198	EYES, accidents to, and causes (Hannum).....	211
motion study (Younger).....	105	amblyopia caused by inhalation of carbon monoxide gas (Murray).....	172
rationalizing distribution of books (Potschtarewa).....	157	color blindness in industry (Chace)...	225
relation of atmospheric conditions to working capacity of coal miners (Vernon, Bedford, and Warner).....	216	detachment of zonula lamella in glass blowers (Rotter).....	42
tests for, in experimental study of repetitive process (Wyatt).....	225	detection of malingerers (Török).....	165
ELECTRICITY, accidents from (Zimmern).....	215	effect of eyestrain on output of linkers in hosiery industry (Weston and Adams).....	237
case of electric cataract (Horton)...	115	electric cataract (Horton).....	115
effect of medium and high tension electric currents on living body (Petrusky).....	73	erosion of, from silver nitrate solution (Thies).....	203
electric accidents and injuries (Pfaff).....	72	foreign bodies, intraocular, localization of (Patton).....	151
heart fibrillation and electric current (Haberlandt).....	158	foreign bodies, intraocular, problems in management of (Mertins).....	195
hygienic conditions in incandescent lamp industry (Sommerfeld).....	54	foreign bodies on cornea, suction method for removal of (Israel)....	42
physiologic effects of currents of very high frequency (Scherschewsky).....	73	foreign bodies within posterior segment of, tolerance to (Bulson)....	151
report of senior electrical inspector of factories (Great Britain) for 1925 (Ram).....	73	glass shields on grinders reduce eye injuries (Muir).....	70
rescue work in electric accidents (Jellinek).....	214	illumination and visual capacities, review of recent literature (Lythgoe).....	163
skin changes in death from electric current (Strassmann).....	215	industrial eyesight examination (Smith).....	97
EMETINE, diseases caused by (Krüger).....	183	injuries to, changes in workmen's compensation laws for (Best).....	20
EMPLOYMENT opportunities of American women, effects of applied research on.....	103	injuries to, in metal industry (Belsky).....	151
		loss of orientation in insured workmen, economic aspect of (Dunn) ..	178
		miners' nystagmus (Allen).....	196
		miners' nystagmus (Fergus).....	196
		miners' nystagmus (Haldane and Llewellyn).....	197

	PAGE		PAGE
s, miners' nystagmus (Robson)....	196	FISHERMEN, erysipeloid among (Klauder, Richter, and Harkins).....	194
miners' nystagmus, mental factor in (Eddison).....	151	FOUNDRY, safe practices in.....	99
prevalence of defective vision (Resnick and Carris).....	152	wages and hours of labor in, 1925....	224
protection of, at charging furnace....	70	FRACTURES, degree of working ability recovered after, as estimated from pension grants (Rieger).....	107
protective net for, in rivet cutting (Rosowsky and Jacobson).....	70	experience with, at Norton Company (Clark).....	222
protective spectacles for workmen (Hessberg).....	154	of upper end of femur, treatment and results of (Higgs).....	212
derosis bulbi due to trauma (Motto).....	115	FRANCE, amendment to law on use of white lead in painting.....	80
visual acuity and color perception of railway employees (Reim).....	225	compulsory notification of occupational diseases in.....	241
factory inspection, annual report of Chief Inspector of Factories (Great Britain) for 1925.....	55	law pertaining to occupational accidents and diseases in hospitals....	230
inspection in Japan, 1924.....	130	syphilis among workers in (Jean-selme and Burnier).....	7
inspection, report of senior electrical inspector (Great Britain) for 1925 (Ram).....	73	FRUIT growing district of northern Pacific coast, child labor in (Channing).....	12
inspection, report of senior medical inspector (Great Britain) for 1925 (Legge).....	56	growing industry in state of Washington, hours, wages, and conditions of women in.....	12
fluorine, acid sodium phosphate in (Flinn).....	213	FUMES, aerosols in industry (Gibbs)...	35
road accidents (Gardiner).....	71	control of, in varnish industry (Howe).....	184
road recovery after physical work (Simonson).....	157	FUMIGATION of woolens (Kuhn).....	104
road rest (Martin).....	71	FUR, dyed, dermatitis from (Thibierge and Lacassagne).....	97
sign of machinery in relation to (Legros and Weston).....	214	FURNACE, charging, eye protection at..	70
setting maximum bodily exertion, influence of, on attention (Ewig and Wohlfeil).....	157	GARAGE accidents.....	113
setting maximum bodily exertion, influence of, on psychomotor action and mental efficiency (Ewig and Wohlfeil).....	198	accidents (Dettling).....	136
termination of, through motion study (Younger).....	105	GAS, automobile exhaust, amblyopia caused by inhalation of (Murray).....	172
coal miners, relation of atmospheric conditions to (Vernon, Bedford, and Warner).....	216	automobile exhaust, carbon monoxide and, review of literature.....	88
controlled work (Graf).....	157	detection and determination of small quantities of arsenic in gases (Lockemann).....	135
