From: P. M. Serokis

To: K. M. Morse

Subject: ASBESTOS EXPOSURE -
OSHA STANDARDS

We request your Department's assistance in determining exposure to asbestos dust of Neville Island employees engaged in removing and/or installing asbestos insulation on piping and other equipment. Affected employees include pipefitters and mechanics. The latter have primary responsibility for insulation work.

This initial survey is needed in order to establish a control program in accordance with instructions in your letter of June 26, 1972.
