- c. If you maintain responsive information in an enterprise database or archiving system, the system must be made available to the government for inspection including any manuals, field lists, data dictionaries, indices, etc. for the government to use to formulate methods for identifying and extracting responsive information into a usable form. ENCLOSURE 4

Confidential Business Information

You may assert a business confidentiality claim covering some portion of the information you provide in response to this Information Request for any business information you believe may be entitled to confidential treatment under section 114(c) of the CAA, 42 U.S.C. § 7414(c); Exemption 4 of the Freedom of Information Act (FOIA), 5 U.S.C. § 552(b)(4); and 40 C.F.R. Part 2, Subpart B. Under section 114(c) of the CAA, you are entitled to confidential treatment of information that would divulge methods or processes entitled to protection as trade secrets. Exemption 4 under FOIA protects “trade secrets and commercial or financial information obtained from a person [that is] privileged or confidential[.]” 5 U.S.C. § 552(b)(4). Under 40 C.F.R. Part 2, Subpart B, business confidentiality means “the concept of trade secrecy and other related legal concepts which give (or may give) a business the right to preserve the confidentiality of business information and to limit its use or disclosure by others in order that the business may obtain or retain business advantages it derives from its rights in the information.” 40 C.F.R. § 2.201(e).

However, your business confidentiality claims are limited by any confidentiality or emission data determinations the Agency has made through rulemaking for information required to be reported to the Agency under Part 98. In accordance with 40 C.F.R. Section 2.301(d), the general CBI rules at 40 C.F.R. Sections 2.201 through 2.215 do not apply to any information found to be emission data or not otherwise entitled to confidential treatment through rulemaking. *See* 76 Fed. Reg. 30782 (May 26, 2011), 76 Fed. Reg. 73886 (Nov. 29, 2011), 81 Fed. Reg. 89188 (Dec. 9, 2016), 77 Fed. Reg. 48072 (Aug. 13, 2012), 78 Fed. Reg. 71904 (Nov. 29, 2013). If you claim any information already determined to be emission data or not otherwise entitled to confidential treatment through rulemaking, the information may be released without further notice to you in accordance with 40 C.F.R. Section 2.301(d).

Information covered by a claim of business confidentiality will be disclosed by the EPA only to the extent, and by means of the procedures, set forth in section 114(c) of the CAA, 42 U.S.C. § 7414(c), 40 C.F.R. Part 2, Subpart B, and Exemption 4 under FOIA. **If a business confidentiality claim does not accompany the information submitted to EPA, then EPA may make the information available to the public without further notice to you. *See* 40 C.F.R. § 2.203(c).**

To assert a business confidentiality claim, you must place on (or attach to) all information you desire to assert as business confidential either a cover sheet, stamped or typed legend, or other suitable form of notice employing language such as “trade secret,” “proprietary,” or “company confidential” at the time you submit your response to this Information Request. Allegedly confidential portions of otherwise non-confidential information should be clearly identified and may be submitted separately to facilitate identification and handling by the EPA. Please be specific by page (including Bates Stamp, if applicable), paragraph, and sentence when identifying the information subject to your claim. Where your claim does not include all information on a page, please place brackets around, or otherwise designate, the text that you

claim to be CBI. Please note that if a page, document, group or class of documents claimed by you to be CBI contains information which EPA determines is not CBI, your CBI claim regarding that page, document, group, or class of documents may be denied. All confidentiality claims are subject to EPA verification. If EPA reviews your CBI claim(s), EPA may send notice to your business and ask you to submit additional information to substantiate the CBI claim(s). *See* 40 C.F.R. § 2.204(e).

In making its final confidentiality determination, the EPA will consider the relevant substantive criteria in its CBI regulations, under 40 C.F.R. § 2.208(a)-(d), as well as the *U.S. Supreme Court's decision in Food Marketing Institute v. Argus Leader Media (Argus)*, 139 S. Ct. 2356 (2019), which evaluated the definition of “confidential” as used in Exemption 4 under FOIA. In the *Argus* decision, the Court held that at least where “[1] commercial or financial information is both customarily and actually treated as private by its owner and [2] provided to the government under an assurance of privacy, the information is ‘confidential’ within the meaning of Exemption 4.” *Argus*, 139 S. Ct. at 2366. The definition of “trade secret” under FOIA is limited to “a secret, commercially valuable plan, formula, process, or device that is used for the making, preparing, compounding, or processing of trade commodities and that can be said to be the end product of either innovation or substantial effort.” *Pub. Citizen Health Research Grp. v. FDA*, 704 F.2d 1280, 1288 (D.C. Cir. 1983). This definition requires that there be a “direct relationship” between the information at issue and the production process. *Id.*

For each item or class of information that you claim as CBI, please answer the following questions, giving as much detail as possible. EPA will use your responses to these questions to determine whether the information has been shown to be entitled to confidential treatment:

1. What specific portions of the information are alleged to be entitled to confidential treatment? Specify by page, paragraph and sentence when identifying the information subject to your claim.
2. For what period of time do you request that the information be maintained as confidential, *e.g.*, until a certain date, until the occurrence of a specified event or permanently? If the occurrence of a specific event will eliminate the need for confidentiality, specify that event. Additionally, explain why the information should be protected for the time period you’ve specified.
3. What measures have you taken to protect the information claimed as confidential from undesired disclosure? Have you disclosed the information to anyone other than a governmental body or someone who is bound by an agreement not to disclose the information further? If so, why should the information still be considered confidential?
4. Is the information contained in any publicly available material such as the Internet, publicly available databases, promotional publications, annual reports or articles? Is there any means by which a member of the public could obtain access to the information? Is the information of a kind that you would customarily not release to the public?
5. Has any governmental body made a determination as to the confidentiality of the information? If so, please attach a copy of the determination.

6. Is there any other explanation you deem relevant to the EPA's determination of your business confidentiality claim that is not covered in the preceding questions? If so, you may provide such additional explanation.

By submitting this information, you are consenting to a limited release of any confidential business information to EPA interns and contractors pursuant to 40 C.F.R. § 2.209(f). The EPA's interns and contractors are required to sign confidentiality agreements as a requirement of their participation in EPA related matters.
