AMERICAN INDUSTRIAL HYGIENE ASSOCIATION

— News of the Local Sections —

Chicago Section

AT THE JUNE 4 meeting of the Chicago Sec-
tion, DR. JOSEPH A. HURATA discussed
"The Use of Some New Drugs in the Indus-
trial Medical Department." His talk included
a survey of ACTH, Tryptar, and some of
the anti-biotics. A color movie with sound,
"Debridement with Tryptar," showing the
treatment of infected wounds was also pre-
sented.

The highlights of the AIHA Annual
Conference held in Cincinnati were reviewed.

During the annual business meeting of
the Section, officers were elected for the
year 1952-53. These include President,
CHARLES W. WYMAN, Western Electric Com-
pany; President-Elect, HOWARD N. SCHULZ,
Abbott Laboratories; and Secretary-Treasurer,
WILLIAM T. MCCORMICK, Inland Steel Company.
The following were elected directors for a
three year term: LEON KIRSCHNER, Illinois De-
partment of Labor; CHARLES S. LAUBLY, Lum-
bermens Mutual Casualty Company; GEORGE
C. STOECKER, American Can Company; FLOYD
A. VAN ATTA, National Safety Council.

Northern California Section

THE REGULAR meeting of the section was held
at the Officers Club, Alameda Naval Air
Station on May 20, 1952. The program in-
cluded a paper, by LAWRENCE SCHMELZER, en-
titled "The X-ray Diffraction Method for De-
termining the Origin of Industrial Dusts,"
which was followed by a review of the Annual
AIHA meeting in Cincinnati.

FRED R. INGRAM has resigned from the Cali-
fornia State Health Department to accept
the position of Chief Industrial Health Safety
Engineer for the University of California's
newly created Division of Occupational Health.
This division will be responsible for on-the-
job health of employees on all campuses.
Eventually the staff will include, in addition
to MR. INGRAM, a physician at the Berkeley
headquarters and a chemist and an engineer
at Berkeley and at Los Angeles to service
campuses in the respective areas.

Tennessee Section

BREAKING the tradition in health meeting
formats, the Tennessee Section of the
AIHA, under the program leadership of its
President-Elect, DR. GILBERT H. COLLINGS, JR.,
Chief of the Occupational Health Branch of
the Tennessee Valley Authority, established
a new device in professional forums. The
Section's spring meeting took place Friday,
March 14, 1952, in Sheffield, Alabama, which
is located in the center of the Muscle Shoals
area. The program was enthusiastically sup-
ported by the industries in the area.

The morning session, with W. H. CHILDRRESS,
American Zinc Company, as chairman, fea-
tured two addresses: "The Employee Health
Program of the Tennessee Valley Authority"
by DR. O. M. BERRYBERRY, Director of the Di-
vision of Health and Safety; and "Women
in Industry" by DR. ANNA M. BAETJER, Assis-
tant Professor, School of Hygiene and Public
Health, Johns Hopkins University.

Field trips to the Reynolds Aluminum Com-
pany, Sheffield, Alabama and to the Wilson
Dam and Hydroelectric Plant, Florence, Ala-
bama, were conducted in the afternoon.

At the dinner meeting, a speech entitled,
"Plant Management Looks at Industrial
Health," was presented by J. T. FLAGG, The
J. T. Flagg Knitting Company, Florence Ala-
bama.

Following the dinner, a Panel Forum was
held, in which a panel of seven experts an-
swered queries from industry representatives.

Texas Section

THE Texas Section will hold its annual meet-
ing in conjunction with the Fifth Annual
Gulf Coast Regional Conference on Industrial
Health to be held September 21-27 at the
Rice Hotel, Houston, Texas. The section is
a co-sponsor of this conference.

An important item of business at the meet-
ing of the section will be concerned with the
possibility of changing its name in view of
the recent establishment of a North Texas
Section.

THE LEAD INDUSTRIES Association announces the publication of a book entitled "Lead
in Modern Industry," Lord Baltimore Press, Baltimore, 1952. Although this book
is not concerned with the toxicology of lead or industrial health exposures, it contains
much valuable information on the production and uses of lead and its compounds. Copies
may be secured at \$1.50 each from the Lead Industries Association at 420 Lexington
Avenue, New York 17, New York.
