Meeting → Tomorrow

will call this Afternoon

FI 2-800

215

no flow meters calibrated-

have to & calibrate it →

6/12/82 Fiber filter papers - does have other fiber →

27 - 47

7 1/2 inch | trying to get millipore filters-

4 miles
Once to N.J. on Tyconomic - P

295 → to Delaware - memorial Bridge

N.J. Turnpike Exit No. 4 or 6 to get into Phil

Tyconomic - Polymers

OR Benjamin Bridge

either

1/2 mile Turnpike don't go to south Phila.

Use Rds. Taking Tyconomic - Polymers } cross Rt. #73 → bridge

on cross river, will go under st. call Leiper street

a continuation of Rt. #73 stay on until come to 1st major st.

Roosevelt Boulevard (Rt. 1) Turn left from

Rt. 1 Long point south on Roosevelt BLVD. 3 miles

go around a circle come to large Bldg complex on SEARS Rd. on Rt.

Rt onto Adams Ave, 3 blocks will come to X I division place

If find

LIA-76960

If go to Benjamin Bridge Rt. 78 or 80 both will go to

Ben Franklin Bridge. Cross over, large circle at base
of Bridge. don't go left - go to Rte 7 Circle on Vine St -
major E-W Boulevard, stay on for 2 miles, directions to
airport, via Yuhill Expressway, go E & W get on
west (King, Prussia - Valley Forge ^{Rt.} 776)

8 to 10 miles - Exit for North Philadelphia.

Pl. Fork, North Phil. At. 1 bear to rt. ~~left~~ center

with Roosevelt Blvd. & come into a northward ^{diagonal} point

stay in center lane & make left turn (until see George Washington
motor lodge). do cross Rising Sun Blvd. For simplicity sake, look for
sears.

Located at Rising Sun & Adams Ave.

off PA Turnpike

U3 Route 1 & Roosevelt Ave same

only 4 miles of city ^{when setting up}

of Expressway when
going across

Tycomin & Polymers

D. have 2 pumps.

draws 25 g/min → Gelman Pump small blue pump
Std. Top model

other regulated 30 down to 10 g/min

Wilson Products - Requires a constant oiling

LIA-76961

15 to 20 min shots - usually burns up most of oil in nozzles etc.

Some tubing - sample location

Filter Paper. 37mm diam Vinyl material - 5 sec process

Whatman →

now used for sampling

could put two back to back

Gelman } Type E - Glass Fiber - →

and

Take Papers on Collection Characteristics
all precipitators

no Calibrated Flow meters →

Gelman - Little Giant - ^{don't have} Vacuum Gauge
