Subject: Smith & Kanzler Receivable from John Krucek

Confirming discussion this date, you do not want me to meet with John Krucek regarding the money owed. You are turning the account over to the Dana people with the understanding that we collect the money regardless of the action required.

It is understood that at this point, the U.S. Steel job in Pittsburgh has been given to Krucek and that SprayCraft will not be used. We are trying a last ditch approach to switch the job back to fibre (rather than semiticious) and possibly another applicator of ours.
