**Subject:** Briefing the Administrator

Chief of Staff Jackson, I'm following up on face-to-face conversations my CO2 Coalition colleagues and I have had with Administrator Pruitt in NYC and in DC on accurate science of Carbon Dioxide. Your boss asked us good questions at those times and to come in and brief him.

We value his scarce time and want him to be exceptionally successful. To this end, what is the time horizon for such a briefing?

Many of the initiatives on which you are working now will be easier to manage and communications thereon targets of less viable criticism if senior political and policy leaders at your Agency and across the Executive had a more robust understanding of the true role (or lack of one) CO2 plays in the physical world.

As you likely know, our experts are strongly supporting and helping organize the Red/Blue team initiative. Recent flack that the Administrator and Sec Perry are getting on this show you are over the target. Take heart!

We're happy to provide more info on the science as prep for the briefing. Likewise, we're happy to file any forms required for requesting a personal meeting. We are a 501c3 and do not lobby on any level. Funded by nonprofits and individuals, not corporations.

I'll finish as I began: what's the horizon?
