Onderwerp: RE: [cciep-chemicals] UNEP Global Consultation on Chemicals and Waste Issues of Concern, 11-12 July 2023 - EU draft LTT - call for comments
Bijlagen: 4-Draft EU LTT-Global Consultation Issues of Concern.docx
Urgentie: Hoog

Dag

Hierbij nog een aantal kleine opmerkingen op de initieel voorgelegde versie, zie bijlage (mogelijks werd dit (deels) opgevangen door jullie later rondgestuurde versies ... maar kon niet meer worden afgetoetst bij de betrokkenen).

Nog als bijkomende toelichting meegeven: een akkoord tussen staten dat juridisch bindend is, IS een verdrag, hoe je het ook noemt. Dat is gewoon de definitie van een verdrag in internationaal recht.

In die zin zegt de comment bij dit punt misschien beter "we don't know yet how it will be called". We do know it will be a treaty...

Met vriendelijke groeten,

Beleidsmedewerker REACH / pesticiden / chemische stoffen

Onderwerp: [cciep-chemicals] UNEP Global Consultation on Chemicals and Waste Issues of Concern, 11-12 July 2023 -
EU draft LTT - call for comments

Beste collega's,

Please be informed of the **draft EU/MS LTT for the Global Consultation on Chemicals and waste of Concern** (see document in attachment), taking place 11 -12th of July (more information in the email below).

Further, note that in this draft specific references are made to **microplastics/INC Plastic, SPP, SAICM, ICCM5 and PFAS**.

Could I kindly ask you to provide your comments to these draft LTT to us at latest by **23/06 12 AM (noon)**.

Thank you in advance.

Onderwerp: TR: INVITATION - UNEP Global Consultation on Chemicals and Waste Issues of Concern, 11-12 July 2023

Urgentie: Hoog

Beste collega's,

UNEP is organizing this summer a **face-to-face Global Consultation on chemicals and waste Issues of Concern (IoC)**. This event will take place on **11-12 July 2023** in Geneva in response to UNEA resolution 5/7 in which the ED was requested to seek views on priorities for further work, building on existing measures and initiatives, and on potential further international action on the [19 Issues of Concern](#) discussed in the UNEP [Assessment Report](#).

The resolution also requested the preparation of a summary analysis, taking into account the views received.

A call for written inputs will be launched by UNEP **at the end of May 2023** and **a summary of views** will be drafted **for consideration at UNEA 6**.

Please note that the **EU/MS Lines To take** on "priorities for further work and on potential further international action on IoC" will be coordinated by the **WPIEI chemicals and synergies**. [\(SPF Santé Publique - FOD Volksgezondheid\)](#) and

[\(SPF Santé Publique - FOD Volksgezondheid\)](#) will be attending the face-to face Global Consultation and will be coordinating the BE position via the CCIM chemicals network.

Regards,

Chemicals Policy Advisor | Risk Management Unit

Objet : INVITATION - UNEP Global Consultation on Chemicals and Waste Issues of Concern, 11-12 July 2023

Importance : Haute

Dear stakeholders,

UNEP is pleased to share with you an invitation letter to the Global Consultation on Chemicals and Waste Issues of Concern, to be held on 11-12 July 2023 in Geneva, Switzerland. The meeting will take place at the Centre International de Conference de Genève (CICG).

Please find attached an invitation letter to the meeting and the corresponding registration form, which you will need to fill out and send by email to [\[REDACTED\]@un.org](#) with copy to [\[REDACTED\]@un.org](#) at your earliest convenience and **no later than 08 June 2023**. Kindly submit also a copy of the first page of your national passport with the registration form.

This invitation is circulated to the UNEP Secretariat of Governing Bodies; SAICM Secretariat, Minamata Secretariat and BRS secretariats for dissemination to focal points. For country representatives wishing to attend the Global Consultation, we kindly request that you coordinate your nominations for attendance. For all participants, coordination is welcomed due to space availability.

Practical details and further information relevant to the meeting will be published as they become available on the UNEP Issues of Concern webpage at: <https://www.unep.org/explore-topics/chemicals-waste/what-we-do/emerging-issues/issues-concern>.

Best regards,

Chief, Chemicals and Health Branch,
Industry and Economy Division
United Nations Environment Programme
