M. P. MURDOCK

April 26, 1960

Mr. M. P. Murdock
Ethyl Corporation
100 Park Avenue
New York, N. Y.

Dear Sir:

Further to Mr. R. E. Albright's telephone conversations today with your Mr. R. Bushell, we are quoting below from cables received today from our affiliates in Holland:

Cable 1: No legal restrictions on use lead in gasoline therefore no approval required.

Cable 2: Careful check by legal advisor and Chamber of Commerce reveals no law in Holland concerning use of lead in gasoline therefore no agency to contact for approval new additive.

In view of the thoughts you expressed on clearance with health authorities during the meeting in Mr. F. W. Dittus' office on April 19, your comment on the above would be appreciated.

Yours very truly,

F. W. DITTUS, Vice Pres.
Technical Services Div.
