ASBESTOS

Following are answers to the questions in your letter of November 8, 1966.

A. Everett does not employ any full-time insulators.

B. Everett does very little insulation work, only a relatively small amount of patch work. Less than 1.0% of overall maintenance employees' time.

C. 85% Magnesium Insulation (Trade Name)
Fibreglass
Asbestos (pipe covering mostly)

D. No spraying of insulating materials is done at Everett.

E. (a) Asbestosis - None
(b) Mesothelioma - None
(c) Carcinomas among insulators - None

F. Ordinary safety precautions are followed. Very little removal of obsolete asbestos is done but on the most recent job (eight months ago), the asbestos had chicken wire backing and was removed without appreciable dust.
