**Subject:** quick question

Give me a time for a teleconference and I will participate.

Hi Leo,

Thanks for quick response – yes, I would like to be involved with the discussions if possible – I think your idea was great and will really help things a lot in nutrient reduction, water quality. Looking forward to it.

Best,

Richard

**Subject:** RE: quick question

I have not contacted Dr. Bunje in writing but did discuss my thoughts with him at the ECOS conference. He thought it was a good idea. I am more than willing to discuss my thoughts with Dr. Shaw. Let me know if you want to be involved in the discussions.

**Subject:** quick question

Hi Leo,

Hope all is going well – had a quick question for you. Were you able to contact Dr. Bunje (per our conversation on nitrate reduction, looking at ways for it to decompose faster) about your idea? Wanted to follow up – of course, ORD would like to help in any way possible.

Dr. Shaw (cc'ed here) has been working on nutrient reduction via prizes (I'm simplifying this a lot and she can followup with you) and I thought maybe the 2 of you could connect?

Thanks much, hope to see you soon,

Richard
