To Physicians and Sanitarians:

The National Health Council invites the attention of the members and friends of its constituent organizations to the four Public Health Summer Schools, conducted at the suggestion of the United States Public Health Service, at Columbia University, the University of California, the University of Iowa, and the University of Michigan.

Inclosed we are sending you an announcement of the University of Michigan Public Health Summer School. Any of the other announcements may be had upon application. Requests should be addressed to the dean of the summer session, whose address may be found in the inclosed pamphlet on "The Public Health Summer School as an Opportunity for a Profitable Vacation."

The National Health Council is sending this material to the physicians and sanitarians of the United States because, in the opinion of the Council, it is of utmost importance to the future of public health work that this remarkable opportunity for high grade, systematic study be brought, in every way possible, to the attention of those who are desirous of equipping themselves for more effective work in the public health field.

Very truly yours,

A. J. LANZA

Executive Officer.

Dear Pat:

An ARLIN search on Anthony Joseph Lanza did not produce manuscript holdings in any repositories.

In NUCMC The National Library of Medicine (8600 Rockville Pike, Bethesda, MD 20894 Tel. (301) 496-6308) has manuscript material of the U.S. Army Medical Corps officers (MS 66-1496). A. J. Lanza is among the authors.

In our autograph collection we have one signed facsim form letter from the National Health Council, sent out by Lanza when he was executive officer of that organization. Photocopies of our holdings of his printed works are enclosed.

Sorry for the delay in getting back to you, we had a very busy October. Good luck with your search.

Sincerely yours,

Jean P. Carr
