Case No. RG-10-539085

**CRANE CO.'S OBJECTIONS AND
RESPONSES TO PLAINTIFFS'
STANDARD INTERROGATORIES**

Complaint Filed: March 30, 2011

PROPOUNDING PARTY: PLAINTIFFS, DEL MCDONNELL, et al.

RESPONDING PARTY: DEFENDANT, CRANE CO.

SET NUMBER: ONE

Defendant Crane Co. responds to Plaintiffs' Standard Interrogatories ("Discovery Requests") as follows:

1 reincorporated in Delaware. Its headquarters and principal place of business are located
2 at 100 First Stamford Place, Stamford, Connecticut.

3 **INTERROGATORY NO. 3:**

4 Has THIS DEFENDANT ever been identified, known, or done business under any other
5 name? If so, please state such name or names and the time period during which THIS
6 DEFENDANT was so known or identified.

7 **RESPONSE:** Subject to and without waiving the Preliminary Statement, Crane Co. has
8 been known as Crane Co. since at least the early 1920s. Information regarding Crane
9 Co.'s business activities is available in its annual reports, which Crane Co. will make
10 available to Plaintiff's counsel for review at a mutually agreeable time and place.

11 **INTERROGATORY NO. 4:**

12 State whether YOU have ever been registered or qualified to do business in the State of
13 California. If so, state the date YOU became qualified to conduct business in the State of
14 California.

15 **RESPONSE:** Subject to and without waiving the Preliminary Statement, Crane Co. has
16 held a certificate to do business in California since October 1, 1985.

17 **INTERROGATORY NO. 5:**

18 Does THIS DEFENDANT currently have, or has THIS DEFENDANT had a department,
19 division, subdivision, branch or group responsible for the design, development, manufacture,
20 testing and use of ASBESTOS-CONTAINING PRODUCT(S). If so, state:

- 21 a. the name of each present or former corporate department,
22 division, subdivision, branch or group;
23 b. the IDENTITY of the person most knowledgeable about
24 such department, division, subdivision, branch or group.

25 **RESPONSE:** Subject to and without waiving the Preliminary Statement, Crane Co. was
26 not a manufacturer of asbestos-containing products as it understands that term and as
27 that term is commonly used in asbestos litigation. However, Crane Co. is and has been a
28 manufacturer of certain types of industrial equipment. Crane Co.'s principal line of

1 industrial equipment has been industrial valves. Industrial valves manufactured by Crane
2 Co. were made of steel, bronze, and other metals; the valves themselves were not composed
3 of asbestos. Many of those valves bore the name "Crane," marked directly on the valve.
4 Certain of the valves had enclosed within their metal structure asbestos-containing
5 gaskets, packing, or discs. Crane Co. did not manufacture the asbestos-containing
6 components that may have been encapsulated within the valves, but purchased them from
7 other companies. Any components that may have been enclosed within the metal structure
8 of Crane Co. valves did not emit friable or respirable asbestos fibers while enclosed within
9 that structure. Any asbestos-containing components were completely encapsulated within
10 the metal structure of the valves. Furthermore, any asbestos contained in the components
11 themselves was chemically and physically bound within the component itself by a rubber-
12 like compound. Harry Farley, William McLean and James Petersen are knowledgeable
13 concerning Crane Co. valves.

14 Crane Co. began manufacturing valves in the 1850s as The Crane Brothers
15 Manufacturing Company. The primary Crane Co. historical valve manufacturing
16 operations were located in Chicago, Illinois; Chattanooga, Tennessee; Washington, Iowa;
17 Jonesboro, Arkansas; and Rogers, Arkansas. In September 1959, Crane Co. acquired
18 certain assets from The Chapman Valve Manufacturing Co., including a valve
19 manufacturing facility in Indian Orchard, Massachusetts. Other more recent valve-
20 related asset acquisitions include a 1992 acquisition of assets of Jenkins Valves, a 1994
21 acquisition of assets of Mark Controls Corporation that included Pacific valves, and a
22 1997 asset acquisition from Stockham Valves & Fittings, Inc. that included Stockham
23 valves.

24 Crane Co. acquired around and subsequent to 1961 the assets of several
25 industrial pump companies that became divisions of Crane Co. Subsequent to those
26 acquisitions, Crane Co. manufactured industrial pumps that may have incorporated
27 within their metal structure an encapsulated asbestos-containing gasket and/or asbestos-
28 containing packing. Crane Co. did not, however, manufacture the asbestos-containing

1 components, such as gaskets or packing, contained in the industrial pumps. It purchased
2 those components from other companies. Any components that may have contained
3 asbestos were enclosed within the metal structure of Crane Co. industrial pumps and did
4 not emit friable or respirable asbestos fibers while enclosed within that structure.
5 Furthermore, any asbestos contained in the components themselves was chemically and
6 physically bound within the component itself by a rubber-like compound. Glenn Davis
7 and Bruce Ordway are knowledgeable concerning pumps.

8 Crane Co. acquired assets of The Deming Company in or about 1961. The
9 Deming division of Crane Co. manufactured pumps at locations in Salem, Ohio and
10 Rogers, Arkansas. The pump types included centrifugal pumps, sump pumps, deep well
11 pumps, high pressure pumps, process pumps, rotary pumps, solids handling pumps and
12 vertical turbine pumps. In or around 1965, Crane Co. acquired assets of Chempump, a
13 pump manufacturing facility in Warrington, PA. The pump types manufactured at that
14 facility included canned motor pumps, diaphragm pumps, and seal-less process pumps.

15 Crane Co. manufactured boilers in the late 1800s, a practice which it appears
16 to have discontinued prior to 1900. Crane Co. resumed manufacturing boilers in or about
17 1931, suspended those operations during World War II, and discontinued that practice in
18 the 1950s. At least some of the boilers Crane Co. manufactured through, at least, the
19 early 1940s contained asbestos insulation. For a brief period of time after it ceased
20 manufacturing boilers, Crane Co. sold boilers that were manufactured, at least in part, by
21 another company. In or about the 1960s, Crane Co. purchased the assets of two boiler
22 companies, which it resold a few years later. To the best of Crane Co.'s knowledge,
23 however, any insulation attached to the inside of the metal jacket or casing on the boilers,
24 water heaters, furnaces, or air conditioners that Crane Co. manufactured with those
25 acquired assets would have been fiberglass, not asbestos, insulation. After it sold those
26 assets, Crane Co. may have sold boilers, water heaters, and furnaces that it purchased
27 from other entities. It is believed, however, that any insulation attached to the inside of
28 the metal jacket or casing on those items was fiberglass, not asbestos, insulation. Certain

1 of the boilers manufactured and/or sold by Crane Co. contained within the metal
2 structure of the boiler material that may have contained some asbestos as part of its
3 composition. Robert Stinson and George Bouchard were former employees
4 knowledgeable concerning boilers.

5 Crane Co. purchased certain assets of National-US Radiator Corporation in
6 or around early 1960. Those assets included facilities for the manufacture of boilers in
7 New Castle, Pennsylvania; Duncansville, Pennsylvania; Middletown, Pennsylvania;
8 Johnstown, Pennsylvania; and Oswego, New York. The boiler brands manufactured with
9 those acquired assets included Cyclotherm, National and Pacific. In January 1964, Crane
10 Co. sold the Oswego, New York plant, which included the Cyclotherm line of boilers, to
11 the Oswego Package Boiler Co. In November 1968, Crane Co. sold the Middletown,
12 Pennsylvania plant, which included the Pacific line of boilers, to Orr & Sembower. The
13 remainder of the assets that had been acquired from National-US Radiator Corporation
14 were sold to Texas International Company in August 1974.

15 Crane Co. purchased certain assets of Thatcher Furnace Company in
16 September 1964. Those assets included a plant in Garwood, New Jersey for the
17 manufacturing of Thatcher boilers. Crane Co. sold the Garwood plant and Thatcher
18 boiler line to Amana Refrigeration, Inc. in July 1968.

19 For a period of time believed to be less than four years during the early
20 1960s, Crane Co., through its division, Crane-Midwest Piping, was involved with the
21 erection of piping systems in limited geographic areas. In connection with that erection
22 business, Crane Co. is presently aware of at least two projects to which Crane Co. sent flat
23 gaskets that, most likely, contained some asbestos as part of their chemical and physical
24 composition. Any asbestos contained in the gaskets would have been chemically and
25 physically bound within the gasket itself by a rubber-like compound. The Midwest
26 Piping facilities were located in St. Louis, Missouri; Los Angeles, California; and Passaic,
27 New Jersey.
28

1 Crane Co. acquired assets from The Cochrane Corporation in November
2 1960. Through its Cochrane Division (located near King of Prussia, Pennsylvania), Crane
3 Co. sold industrial water treatment systems, including deaerators, water conditioners,
4 multi-port steam relief valves, drainers, sample coolers, and condensate boosters. Those
5 products were composed primarily of metal; they were not composed of asbestos.
6 Depending on the application for which it was to be used, some of this equipment
7 incorporated internal components, primarily cloth gaskets, manufactured by others, that
8 may have contained some asbestos as part of their chemical composition. Those
9 components were enclosed within the equipment and were not exposed during installation
10 or normal use of the product. Prior to the mid 1980s, Crane Co. may have sold
11 replacement gaskets for use in the industrial water treatment systems. To the best of
12 Crane Co.'s knowledge, Crane Co. did not manufacture any of the internal components,
13 but purchased them from other companies. Russ Burke is knowledgeable concerning
14 deaerators.

15 Crane Co., through a division, manufactured aircraft hose assemblies. Prior
16 to approximately 1982, the tubing associated with the hose assemblies may have contained
17 some asbestos as part of its composition.

18 Crane Co. also offered for sale certain products manufactured by other
19 companies. A small quantity of those products may have contained asbestos. Crane Co.
20 offered for sale gaskets, packing, and discs manufactured by other companies that may
21 have contained asbestos. Material called Cranite was manufactured by others exclusively
22 for resale by Crane Co., from approximately 1920 through what appears to be the early-
23 to-mid 1970s. The finished "Cranite" products had the name "Cranite" stamped directly
24 upon them. Any asbestos contained in Cranite, however, was chemically and physically
25 bound within a rubber-like compound that prevented the release of any friable asbestos
26 fibers. In addition, Crane Co. offered for sale products manufactured by others at many
27 of its branch locations. Crane Co. will provide Plaintiff a listing of those branches,
28 including California locations. Some of the products offered for sale at certain branches

1 at a plant located in King of Prussia, Pennsylvania; and for boilers at plants located in
2 Pennsylvania, New York, and New Jersey. Crane Co. also manufactured other products
3 at other locations. Crane Co. did not ever manufacture any of the asbestos-containing
4 components that may have been included in the pumps, valves, deaerators, or boilers.
5 Accordingly, those components would not have been manufactured at any of the locations
6 listed above.

7 Crane Co. is not presently aware of all the specific entities from which it
8 obtained asbestos-containing components for its industrial products. Nevertheless, based
9 upon available documents, it appears that, at various times, Crane Co.'s approved
10 suppliers may have included B.F. Goodrich Co., Goodyear Tire & Rubber Co., and Sweet
11 Rubber Co. of Akron, Ohio, with respect to "Cranite" material, Raybestos Manhattan,
12 Inc., Johns-Manville, Inc., Garlock, Inc., "Klingerit", M.V.G. Inc., Melrath, Collins
13 Packing, and Nicollet, Inc., with respect to sheet gasket material, Crane Packing Co. (later
14 John Crane-Houdaille, Inc.), Johns-Manville, Inc., Anchor Packing, Raybestos-
15 Manhattan, Greene-Tweed, Garlock, Inc., Lindstrom & King, and R.M. Industrial
16 Products with respect to valve packing, Johns-Manville, Flexitallic, Spirotallic, Lamons
17 Gasket Co., and R-Way Gasket & Supply Co., with respect to spiral wound gaskets,
18 Aberden Industries, Inc. with respect to discs, Keasby Mattison, Certainteed and Johns-
19 Manville with respect to cement pipe, Baldwin-Ehret-Hill with respect to monoblock and
20 Johns-Manville with respect to miscellaneous materials. The foregoing list is not intended
21 to be an exhaustive list of Crane Co.'s suppliers. To the contrary, it merely reflects the
22 information of which Crane Co. is presently aware. By way of further response, see
23 Preliminary Statement, Section B.

Crane Supply Company
310 Commerce Circle
Sacramento, California

Gentlemen:

I am happy to enclose our new Agreement setting forth the terms of purchase of TRANSITE pipe by your good company. Though we have enjoyed your excellent support for many years without the use of such a document, we feel this formalization of our business relationship will be of mutual benefit.

Advantages of this agreement include the establishment of a standard price protection period and the written statements of policy covering discounts, transportation, etc., set forth in the Merchandising Plan. We believe this to be one method of reaffirming our support of the manufacturer-distributor-dealer chain of merchandising.

The success and growth of your company are very important to us, as our progress, in turn, is governed by your effectiveness in the distribution of our products. Thank you for your past business. We look forward to the future.

Sincerely,

G. A. Conley

Crane Co. Plans Entry Into Real Estate World Through an Acquisition

By a WALL STREET JOURNAL Staff Reporter

NEW YORK—Crane Co., a manufacturer of valves, pumps and equipment for water treatment, plumbing, and heating, said it plans to enter the real estate development business through the acquisition of Rossmoor Corp., a Laguna Hills, Calif., builder of planned communities, shopping centers, medical centers and apartments.

Crane said it agreed to purchase Rossmoor, a closely held concern, for more than \$30 million, payable in the form of a subordinated note due 1994, with 7% interest payable beginning 12 months after the closing date.

Crane said that Ross W. Cortese, Rossmoor's president and principal owner, would continue to operate the company with his present organization.

Rossmoor has built more than 25,000 residential units, most of them in Leisure World "adult" communities, Crane said. The company added that Rossmoor's current financial results weren't available.

Rossmoor's principal holdings are about 2,400 acres of undeveloped and partially developed land, buildings and shopping centers in Laguna Hills and Walnut Creek, Calif., Monroe Township, N.J., and Montgomery County, Md., Crane said. Rossmoor also owns utility companies in California and New Jersey.

Mr. D. Williams

604 - 5th Avenue
Redwood City, California

Dear Doug:

I am happy to enclose our recently executed agreement setting forth the terms of purchase of TRANSITE pipe by your good company. Though we have enjoyed your excellent support for many years without the use of such a document, we feel this formalization of our business relationship will be of mutual benefit.

Advantages of this agreement include the establishment of a standard price protection period and the written statements of policy covering discounts, transportation, et., set forth in the Merchandising Plan. We believe this to be one method of reaffirming our support of the manufacturer-distributor-dealer chain of merchandising.

The success and growth of your company are very important to us, as our progress, in turn, is governed by your effectiveness in the distribution of our products. Thank you for your past business. We look forward to the future.

I hope to see you again soon. Cliff Hauenstein tells me that he is taking good care of you. Meanwhile, if I can be of any help here in San Francisco, don't hesitate to call on me.

Sincerely,

G. A. Conley
District Manager

AGREEMENT FOR SALE OF PERSONAL PROPERTY

THIS AGREEMENT is made and entered into the 1 day of October, 1981, by and between CAMELLIA VALLEY SUPPLY, INC. (CAMELLIA), hereinafter referred to as "Seller" and PACIFIC COAST BUILDING PRODUCTS, INC., a California corporation, hereinafter referred to as "Buyer."

RECITALS

WHEREAS, CAMELLIA owns and operates a waterworks supply business with locations at Sacramento and Modesto, California, and owns and uses certain personal property in connection with the operation of the same, and desires to sell certain personal property;

WHEREAS, Buyer is desirous of purchasing Seller's personal property as hereinafter provided;

NOW, THEREFORE, for and in consideration of the recitals, and the warranties, representations, covenants, terms and conditions hereinafter set forth, the parties hereto agree as follows:

1. Agreement to Purchase and Sell. Seller hereby sells to Buyer and Buyer hereby purchases from Seller, the personal property of Seller, which personal property generally consists of inventory and supplies, vehicles and rolling stock, machinery, tools and equipment, office furniture and equipment and leasehold improvements, which are listed on Exhibits A, B, C and D. In addition to such personal property, the following items of personal

property are hereby further sold, assigned and transferred by Seller to Buyer:

(a) All rights to the trade name Camellia Valley Supply and any related logos pertaining thereto.

(b) Intangibles used by Seller in the operation of their waterworks supply business, including, but not limited to customer lists, lists of supply sources, operations manuals, patents, copyrights, formulas, inventions, trade secrets and any other confidential or non-confidential information or matter relating exclusively to and necessary to the operation of the waterworks supply business.

2. Purchase Price. The purchase price to be paid by Buyer to Seller for the personal property being sold hereunder shall be as follows:

(a) The purchase price to be paid by Buyer for inventory and supplies shall be the amount shown and priced on an inventory taken and jointly agreed to by the parties on September 27, 1981, which shall contain only non-obsolete, current inventory priced out.

(b) The purchase price to be paid for those items of personal property listed on Exhibits A, B, C and D and any other personal property or intangibles to be transferred by Seller to Buyer hereunder, shall be the total sum hereinafter set forth, and allocated according to the attached Exhibits, said total price being \$ 346,851⁰⁰.

3. Possession. Possession of the property shall be given to Buyer on October 1, 1981 ("Takeover Date"). Buyer agrees to conduct the business for Buyer's own account between the Takeover Date and the Closing Date in a diligent and businesslike manner. Buyer shall be entitled to all income referable to the business, subject to the payment of all usual and necessary expenditures, during that period. Buyer assumes all risk of loss to the property from and after delivery of possession on the Takeover Date, and Buyer shall maintain casualty insurance in the amount of the full replacement value of the property between the Takeover Date and the Closing Date.

4. Payment of Purchase Price. Buyer shall deposit with the escrow holder provided for herein all sums to be paid by it to Seller. Except as otherwise herein provided, or provided by law, Seller shall receive payment of the purchase price from the escrow holder on the "Closing Date." Provided, however, that with respect to the purchase price to be paid for the inventory and supply items, such amount shall be deposited in cash by Buyer to the escrow as soon as the inventory has been extended and adjusted for changes occurring between the date of physical inventory and the Takeover Date. Notwithstanding the foregoing, Buyer shall deposit the full purchase price of the inventory no later than October 15, 1981.

5. Inventory and Supplies. The parties shall inventory Seller's inventory and supplies on September 27, 1981, and shall thereafter agree upon the inventory and supplies which are salable

and non-obsolete, and as to which Buyer will purchase from Seller. After taking such inventory and agreeing upon the same, the price of said inventory to be paid by Buyer shall be determined by pricing the same at Seller's cost, on a first-in, first-out basis.

6. Sales and Vehicle Transfer Taxes. Buyer and Seller shall each pay one-half of any sales tax levied upon the sale and transfer contemplated hereby. Buyer shall pay all vehicle transfer taxes resulting from the sale of any vehicle under this Agreement.

7. Liabilities to be Assumed by Buyer. Buyer agrees to assume those liabilities and obligations of Seller which are set forth on Exhibits E, F and G, attached hereto and incorporated by reference.

8. Warranties of Seller. Seller makes the following representations and warranties to Buyer, with the intent that Buyer rely thereon and to induce Buyer to enter into this Agreement and to consummate the purchase contemplated herein, which warranties, covenants and other obligations contained in this Agreement on the part of Seller shall survive the closing hereof and the delivery of transfer documents, as follows:

(a) None of the personal property to be transferred hereunder is the subject of any claims or litigation and will not be at the takeover date. *EV 1.63*

(b) The personal property being sold and transferred hereby is owned by Seller, Seller has the right to sell and transfer the same, and except as set forth on Exhibit G such personal property

In 1953 in Sacramento, CA, Fred Anderson opened the doors to his fledgling company, Anderson Lumber. From those modest beginnings, Pacific Coast Building Products (PCBP) was born. Over the ensuing years Fred, and later, Dave Lucchetti, the company's president since 1978, purchased and founded building product-related businesses. By the time of Fred's death in 1997, the company had expanded into other cities and states; today PCBP is a holding company for its wholly-owned subsidiaries that operate 70-plus locations that can be found in Hawaii to the west, Colorado to the east, Canada to the north and all points in between.

None of this growth and expansion would have been possible without the scores of talented employees, along with our valued customers and partners who have been with PCBP every step of the way. PCBP is deeply grateful for their confidence and commitment to our organization, over the past 60 years and into the future.
