

1 A I think that was one area. Some companies
2 did.

3 Q And people lost their fingers and hands and
4 stopped the beer breaks, didn't they?

5 MR. IGNATOWSKI: Objection.

6 THE COURT: I don't know what relevance that
7 has, but I enjoyed it.

8 BY MR. MCGOWAN:

9 Q Doctor, I am trying to illustrate our
10 understanding of industry and hygiene changed over
11 time; isn't that right?

12 What is considered safe today or what was
13 considered safe back in the '20s and '30s isn't
14 necessarily considered safe today; isn't that
15 correct?

16 A They had, certainly, knowledge of a level of
17 hazard, the dose response. We had information that is
18 evolving and that book has principles of control, it
19 had nothing to do with safe levels.

20 Q The point I am making, we wouldn't give beer
21 to people using heavy equipment today, would we?
