

TO: See Distribution

March 23, 1972

FROM: #340 - Mr. R. K. Smith

SUBJECT: Imperial Q.T. Texture - Asbestos Free Formulas

Effective immediately upon receipt of this letter all plants listed below are instructed to switch all production of Imperial Q.T. Spray Texture LCNC to Bulletin 61-2-42-11-A. This is the new non-asbestos formula which has been successfully field trialed.

We are currently field trialing a non-asbestos Vermiculite formula. As quickly as successful field trials are completed, we will advise you on changeover date of the Vermiculite formula.

Also, by this letter, Dallas and Midway Plants are authorized to changeover to bulletin 61-2-42-2-6 non-asbestos formula for Imperial Q.T. Spray Texture - Polystyrene.

If there are any questions as to the intent of the above instructions please contact me directly.
