A Probably not intentionally.

MR. IGNATOWSKI: Objection.

Q All right.

I want to move on to the Dr. Merewether study back in 1930, and, again, we all know he is dealing with the asbestos factory.

Am I right, Doctor, after that was published for the whole world to see, that asbestos wasn't banned?

A No, it is still not banned.

Q Right.

Am I correct that, as a result of that act, England passed what is known as the Factory and Workshop Act?

A Actually, I think that preceded Merewether's publication.

Q Basically what that said is when you are working with asbestos in dusty areas, you have to keep the dust levels down?

A Yes, they passed a law that tried to control dust within factories.
