On September 27, 1977 at 9 A.M., Curtis Elmer, Department of Medical and Environmental Health, and Gary Jost, Corporate MISD, will present an overview of the Corporate Medical and Environmental Health Systems plans. This presentation should provide you with an understanding of the relationships between the plants and Corporate Monsanto in the development of data base systems to support information requirements in the personnel safety and environmental areas.

The meeting will be held in the Springfield Research Conference Room and will last 2 1/2 - 3 hours.
