Hi Liane,

Looks good to me, I saw one spelling error. Other than that I don't have anything to add. I did note that it mentioned (b)(5), Deliberative Process Privileged

Let me know what next. Greg and I will be speaking with others in our group about potential items in the regs and FSM/FSH.

Thanks

Subject: FS response to EO of MARCH 28, 2017 Promoting Energy Independence and Economic Growth

Gentlemen, welcome to the merry band that is crafting the FS response to the above-referenced EO (attached for your convenience). We are responding specifically to section 2 of the EO. I am the leader of this effort ☺, and Cheryl nominated you to help!

Section 2 of the EO requires the following:

- (a) The heads of agencies shall review all existing regulations, orders, guidance documents, policies, and any other similar agency actions (collectively, agency actions) that potentially burden the development or use of domestically produced energy resources, with particular attention to oil, natural gas, coal, and nuclear energy resources. Such review shall not include agency actions that are mandated by law, necessary for the public interest, and consistent with the policy set forth in section 1 of this order.

In the EO, "burden" means to unnecessarily obstruct, delay, curtail, or otherwise impose significant costs on the siting, permitting, production, utilization, transmission, or delivery of energy resources.

The EO has three deliverables, being called phases.

Phase One:

(c) Within 45 days of the date of this order, the head of each agency with agency actions described in subsection (a) of this section shall develop and submit to the Director of the Office of Management and Budget (OMB Director) a plan to carry out the review required by subsection (a) of this section the heads of each agency to review all agency actions that potentially burden the safe, efficient development of domestic energy resources and sets timeframes for the review and follow-up actions.

Phase Two:

Within 120 days of issuance of the EO, this report of the agency's findings must be submitted to the Vice President, the OMB Director, the Assistant to the president for Economic Policy, the Assistant to the president for Domestic Policy, and the Chair of the Council on Environmental Quality.

Phase Three:

Within 180 days of the date of the EO, the report will be finalized and submitted to the OMB Director and the other officials listed above (under phase two).

We are currently working on Phase 1, the Review Plan (draft attached for your review). You will notice

(b)(5), Deliberative Process Privilege

Thanks in advance! LM
