

MEDICAL SURVEILLANCE REQUIREMENTS

| <u>JOB/EXPOSURE</u>              | <u>REFERENCE</u>           | <u>WHEN REQUIRED</u>                                                                                                      | <u>UCC REFERENCE</u>       | <u>MEDICAL FREQUENCY</u>                                                                                                                                             |
|----------------------------------|----------------------------|---------------------------------------------------------------------------------------------------------------------------|----------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Fire Brigade                  | 29CFR 1910.156             | No physical required by OSHA. Specific medical illnesses are referenced.                                                  | Appendix II Number 4       | Annually (UCC)                                                                                                                                                       |
| 2. Industrial Equipment Operator | 29CFR 1910. Subpart N ANSI | Provide Operators medically qualified                                                                                     | Appendix II Number 5 and 6 | Each 2 years (UCC)                                                                                                                                                   |
| 3. Truck Drivers ICC             | 49CFR Chapter 3            | ICC Commerce                                                                                                              | Append II Number 3         | Each 2 years                                                                                                                                                         |
| 4. Noise                         | 29CFR 1910.95              | Annual exposure $\geq 85$ dBA                                                                                             | Appendix II Number 1       | Annual                                                                                                                                                               |
| 5. Respirator Wearer             | 29CFR 1910.95<br>134       | When respirator is worn on a normal or emergency basis.                                                                   | Appendix II Number 2       | Physical to age 40 every 5 years to age 50 every 2 years above age 50 every year<br>Health Review<br>Questionnaire filled out each year a physical is not completed. |
| 6. Hazardous Waste               | 29CFR 1910.120             | When an employee is exposed to hazardous wastes more than 30 days/year or is an emergency response team member.           | None                       | Annually (OSHA)                                                                                                                                                      |
| 7. Asbestos                      | 29CFR 1910.1001            | Exposure is $\geq 0.1$ fiber/cc                                                                                           | Appendix III Number 1      | Annual                                                                                                                                                               |
| 8. Ethylene Oxide                | 29CFR 2920.1047            | Exposure is $\geq 0.5$ ppm TWA <sub>8</sub> 30 days/year                                                                  | Appendix III               | Annual                                                                                                                                                               |
| 9. Lead                          | 29CFR 1910.1025            | Exposure above 30 mg/m <sup>3</sup> TWA <sub>8</sub> ; 30 days/year                                                       | Appendix III Number 5      | Semi-Annually                                                                                                                                                        |
| 10. Vinyl Chloride               | 29CFR 1910.1017            | Preassignment to VC area<br>Exposure above 0.5 ppm TWA <sub>8</sub> .<br><br>Worked in Vinyl Chloride area over 10 years. | Appendix III Number 3      | Semi-Annually if worked in area over 10 years.<br><br>Annually if exposed over 0.5 ppm TWA <sub>8</sub> .                                                            |
| 11. Acrylonitrile                | 29CFR 1910.1045            | Preassignment to AN area.<br>Exposure above 1 ppm TWA <sub>8</sub> .                                                      | Appendix III Number 6      | Annual                                                                                                                                                               |
| 12. OSHA Cancer Suspect (13)     | 29CFR 1910.1003-1016       | Required to enter regulated areas                                                                                         | Appendix III Number 2      | Annual                                                                                                                                                               |
| 13. Inorganic Arsenic            | 29CFR 1910.1018            | Exposed above 5 micrograms/m <sup>3</sup> or worked in area over 10 years                                                 | Appendix III Number 4      | Semi-annually if over 10 years. Otherwise, annually.                                                                                                                 |
